The Cubist Cinema:

Standish Lawder and the Cubist Cinema Standish Lawder, 2020-05-07 Standish Lawder was a film artist. In November 1965 at the Film Makers Cinematheque he participated in an early expanded cinema event organized by Jonas Mekas and the New American Cinema Group. Over the following decade Lawder made a series of provocative visually ingenious films which are as compelling now as they were a half century ago. Standish Lawder was an art historian. If the activity of Mekas and the New York underground have now come to be seen as the beginning of the second major chapter in the history of experimental film unquestionably the first chapter was the European avant garde of the 1920s. Lawder was a pioneer in serious art historical research on the subject. This book is an attempt to appreciate Lawder as an artist and make his singular achievement as an art historian more available.

The Cubist Cinema Standish D. Lawder, 1975 Standish D. Lawder in The Cubist Cinema correlates the history of film with its impact on modern art. Here is a definitive examination of the interrelationships between the Cubist movement in painting and its manifestations in film. The Cubist Cinema explores such questions as: What is the nature of early filmic expression and its significance to early twentieth century art? How might the earliest films have been perceived by modern artists? How has film influenced modern art? Which films in themselves have made notable contributions to early twentieth century art particularly Cubism? The scope of the book covers such giants as Picasso, Survage, Kandinsky and Schonberg and their fascination with film and then moves into the surrealist Bauhaus aesthetic and the hallucinatory content of Surrealist painting of the late 1920s as a background for the abstract movement in film beginning with Hans Richter, Viking Eggeling and Walter Ruttman. Standish Lawder offers much original research as a basis for analysis of Richter, Eggeling and Léger as well as other seminal figures of the avant garde film movement of the 20s. Léger's famous *Ballet Mecanique* 1924 is studied in comprehensive detail: its sources, its position with Léger's painted oeuvre and its nature as a work of art are analysed and documented. As film has come to be regarded as the art of our time, The Cubist Cinema is exclusively relevant as a source of the earliest alliance between film and modern art.

Picasso, Braque, Léger, and the Cubist Spirit, 1919-1939 Kenneth Wayne, 1996 This volume presents art and design in France during the years between the two World Wars in an effort to dispel the perception that Cubism was only a pre World War I phenomenon. After the war Cubist painting became more varied, colorful and accessible and began to affect other media such as furniture, fashion, cinema and architecture. What had begun as a rarefied pictorial style became a popular language. The first essay addresses Picasso's abundant and varied cubist painting. The second essay treats the art of three major Cubists Picasso, Braque and Léger in the context of the various cubist idioms that developed. The third essay also broad in scope examines the significant relationship between Cubism and the decorative arts in France.
