## **The Pocket I Ching:**

**The Pocket I Ching** Thomas Cleary, 2006-09-12 The I Ching Book of Change is considered the oldest of the Chinese classics and has throughout Chinese history commanded unsurpassed prestige and popularity. Containing several layers of text and given numerous levels of interpretation the I Ching has been venerated for more than three thousand years as an oracle of fortune, a guide to success, and a source of wisdom. The underlying theme of the text is change and how this fundamental force influences all aspects of life from business and politics to personal relationships. This translation of the I Ching draws on ancient Confucian commentary which emphasizes applying practical wisdom in everyday affairs. *Pocket I-Ching* Gary G. Melyan, Wen-Kuang Chu, 2012-07-03 In this easy to follow pocket edition the ancient Chinese system of predicting the future has been made simple: opening the hidden world of the I Ching to the nonspecialist. The method of divining the 64 prophetic hexagrams and the way to interpret their meaning correctly is clearly explained, and to give extra assistance each hexagram is divided into 20 different categories of concern ranging from love and marriage to your best bets in business and how to take care of your health. Thus your fortune can be infallibly revealed in a way that has been followed throughout the East for more than 2000 years. Fascinating, intriguing, and entertaining, this is a book you really can't afford to be without.

**Introduction to the Philosophy and Religion of Taoism** Jeaneane Fowler, 2005-08-22 In its rich evolution from antiquity to present times, Chinese religion has encompassed manifold religious expressions. Taoism is one facet of Chinese religion and exemplifies particularly well the variety of beliefs and practices that humankind has adopted and experienced in the search for answers to both ultimate and proximate questions about life and death. This book explores the different pathways Taoism took in that search, touching at many points on the other interrelated facets of Chinese religion: in Confucianism, Buddhism, and popular religion. The mystical philosophical traditions of Taoism are analysed as well as the more colourful and overtly religious strands of Taoism.

**The Dictionary of Magic & Mystery** Melusine Draco, 2012-05-25 Every good reference book is both a product and a reflection of its time. The Dictionary of Magic & Mystery is not just another compendium or dictionary of occultism; it is a jumping off point for further research. Here the reader will find the ancient and modern interpretation for magical and mystical terms together with explanations for the differences between the varied and often conflicting approaches to magic.
