Morris, Richard Kiely, 1995 Tartanry and Balmorality is Scotland's thriving heritage industry an economic blessing or the curse of negative stereotyping. Since the eighteenth century heritage has been synonymous with heritage tourism. This book is the first to explore the images which this industry conveys and to analyse its centrality to Scotland's definition of itself. Based on an influential study by three leading sociologists it examines the specific role and character of the major players in Scottish heritage the National Trust for Scotland the Scottish Tourist Board and Historic Scotland as well as the lairds who have a stake in the industry. In describing its consumers the authors show how heritage fits into their patterns of leisure consumption and lifestyle. It also discusses the importance of heritage as opposed to history to the country's identity and politics.
