**Theorizing Digital Divides** Massimo Ragnedda, Glenn W. Muschert, 2017-09-22 Although discussion of the digital divide is a relatively new phenomenon social inequality is a deeply entrenched part of our current social world and is now reproduced in the digital sphere Such inequalities have been described in multiple traditions of social thought and theoretical approaches To move forward to a greater understanding of the nuanced dynamics of digital inequality we need the theoretical lenses to interpret the meaning of what has been observed as digital inequality This volume examines and explains the phenomenon of digital divides and digital inequalities from a theoretical perspective Indeed with there being a limited amount of theoretical research on the digital divide so far Theorizing Digital Divides seeks to collect and analyse different perspectives and theoretical approaches in analysing digital inequalities and thus propose a nuanced approach to study the digital divide Exploring theories from diverse perspectives within the social sciences whilst presenting clear examples of how each theory is applied in digital divide research this book will appeal to scholars and undergraduate and postgraduate students interested in sociology of inequality digital culture Internet studies mass communication social theory sociology and media studies

**Reports and Documents** United States. Congress, **The Contemporary British Mosque** Abdul-Azim Ahmed, 2024-03-21 Repositioning mosques as social cultural and political spaces this book provides new insights on key contemporary debates the religious identity of Britain secularisation the far right and terrorism and gender equality Exploring the story of the British mosque from house conversions to grand works of architecture and the role they play in public life Abdul Azim Ahmed details the establishment of early mosques during the era of Empire and the rapid growth in the years following the Second World War Ahmed takes a sociological approach to this study drawing on fieldwork and ethnographic case studies alongside reviews of databases and historical documents to provide perspectives on the British mosque from the congregants themselves The Muslim congregation a poorly understood and often overlooked dimension of religion in Britain is examined and issues of diversity denomination sacredness and society are explored

**The Negotiation of Urgency** Mirko Pasquini, 2025-06-17 Who is to be attended first And how should such a decision be made The Negotiation of Urgency Economies of Attention in an Italian Emergency Room ethnographically explores the everyday life of one of the thickest places in contemporary societies the ER where aging economic precarity draconian migration laws hospital overcrowding and life and death intersect daily The book describes the effect of those intersections for clinicians and their patients as well as for policy makers and the health care system more generally Mirko Pasquini shows that there is more than medical urgency at stake in the ER where mistrust of medical authority is fueled and violence often sparks He analyzes the making of urgency that is triage not as a neutral medical way of sorting but as a practice that actively creates difference through economies of attention The Negotiation of Urgency illustrates both the limits of triage and how those limits can spark improvisation and creative reinvention

contains methodological as well as historical chapters dealing with problems ranging from the earliest purported evidence  
for domestication to the role of horses in the classical periods the geographic scope is also vast spanning Portugal to China  
and Siberia to Africa **The school edition. Euclid's Elements of geometry, the first six books, by R. Potts.**

**Spaces** Janet Merkel,Dimitris Pettas,Vasilis Avdikos,2023-11-07 This contributed volume considers the emergence of  
coworking as centered in labor issues More specifically its chapters consider it as a coping mechanism in the worldwide rise  
of independent modes of work i e self employment that leaves more and more workers exposed to precarity as they must  
organize and manage their own labor Grounded in this perspective this volume aims to understand the transformative social  
and political potentials emerging through coworking as a social and spatial practice There is a distinct lack of discussion  
within coworking research on the emancipatory potentials of coworking and if it is discussed more cautionary views prevail  
highlighting the ambivalence of coworking spaces both as a space of alternative economic practices and as integrated into  
market economies The aims of this collection are twofold First it aims to make visible the plurality of existing practices  
around shared resources in coworking and the assemblages of human and non human actors as agents of change associated  
with coworking and the re organization of work and labor power And second it aims to develop a more emancipatory  
narrative for coworking and the role of coworking spaces for workers but also the different spatial contexts in which these  
spaces are situated A narrative that does not emphasize entrepreneurship or coworking as the epitome of the neoliberal  
entrepreneurial self as in the dominant interpretations in the current research but rather one that centers coworking in the  
creation of meaningful careful social relationships supporting empathy and an ethics that recognizes mutual  
interdependencies and builds a foundation for social change So it is about alternative narratives emancipation politics and  
the wider social role that coworking spaces might play in neighborhoods cities or beyond because they are crucial contexts  
for the formation and maintenance of social relations With this specific direction this collection aims to bring coworking  
research into a fruitful dialog with other research fields such as sociology of work feminist perspectives on care alternative  
and diverse economies post capitalist transformation critical geography positioning coworking within a range of progressive  
alternatives in the articulation of economic and social relationships *Rethinking Modern European Intellectual History*  
Darrin M. McMahon,Samuel Moyn,2014-03 This book is a collection of essays by leading practitioners of modern European  
intellectual history reflecting on the theoretical and methodological underpinnings of the field The essays each attempt to  
assess their respective disciplines giving an account of their development and theoretical evolution while also reflecting on

current problems challenges and possibilities      *Dun Echt Observatory Publications* ,1877      **Re-writing Spatiality** Britta  
Kuhlenbeck,2010 The objective of this project is to encourage new ways of thinking about the meaning and significance of  
space It follows a desire that has been expressed and theorized by Henri Lefebvre and by extension Edward W Soja to  
remove Spatiality from the margin of the Trialectics of Being and to bring it into the Trialectics fold alongside with and of at  
least equal significance to Historicity and Sociality The thesis focuses on how space of the Pilbara region in Western  
Australia is produced in contemporary Australian writing film art and through lived experience The thesis argues for an  
understanding of space as essentially dynamic      Favorite Songs and Hymns for School and Home John Piersol
