*The Swiss Without Halos* J. Christopher Herold, 1958    People, Nations and Traditions in a Comparative Frame DMaris Coffman, Harold James, Nicholas Di Liberto, 2021-03-10 If the turn of the twenty first century was characterised by the history wars in which bitter internecine battles raged between different historical schools Jonathan Steinberg was noteworthy for his methodological pluralism His own historical work spanned diplomatic history military history the social history of war biography social history banking history political culture and genocide studies He often employed a comparative historical approach which teased out deep historical explanations by examining personalities nations and traditions simultaneously This book offers a critical appreciation of his contribution to modern historical practice with contributions by former students and colleagues whose own interests are as diverse as those of Steinberg himself

*The End of Kings* William R. Everdell, 2000-04-15 Written in clear lively prose *The End of Kings* traces the history of republican governments and the key figures that are united by the simple republican maxim No man shall rule alone Breathtaking in its scope Everdell's book moves from the Hebrew Bible Solon's Athens and Brutus's Rome to the impeachment trial of Andrew Johnson and the Watergate proceedings during which Nixon resigned Along the way he carefully builds a definition of republic which distinguishes democratic republics from aristocratic ones for both history and political science In a new foreword Everdell addresses the impeachment trial of President Clinton and argues that impeachment was never meant to punish private crimes Ultimately Everdell's brilliant analysis helps us understand how examining the past can shed light on the present An energetic aphoristic wide ranging book Marcus Cunliffe Washington Post Book World Ambitious in conception and presented in a clear and sprightly prose This excellent study is the best statement of the republican faith since Alphonse Aulard's essays almost a century ago Choice A book which ought to be in the hand of every American who agrees with Benjamin Franklin that the Founding Fathers gave us a Republic and hoped that we would be able to keep it Sam J Ervin Jr    To Make this Land Our Own Arlin C. Migliazzo, 2007 A case study in the social history of frontier town building set in the swamps of South Carolina On the banks of the lower Savannah River the military objectives of South Carolina officials the ambitions of Swiss entrepreneur Jean Pierre Purry and the dreams of Protestants from Switzerland France Germany Italy and England converged in a planned settlement named Purrysburg This examination of the first South Carolina township in Governor Robert Johnson's strategic plan to populate and defend the colonial backcountry offers the clearest picture to date of the settlement of the colony's Southern frontier by ethnically diverse and contractually obligated immigrants Arlin C. Migliazzo contends that the story of Purrysburg Township founded in 1732 and set in the forbidding environment bounded by the Savannah River and the Coosawhatchie swamps challenges the notion that white colonists shed their ethnic distinctions to become a monolithic culture He views Purrysburg as a laboratory in which to observe ethnic phenomena in the colonial and antebellum South Separated by linguistic religious and cultural barriers the migrants adapted familiar social processes from

their homelands to create a workable sense of community and identity His work is one of only a handful of examples of what has been deemed the new social history methodology as applied to a South Carolina subject Initially devastated by privation and a high mortality rate Purrysburg residents also suffered the vicissitudes of an indifferent provincial elite the encroachment of lowcountry rice planters Prevost's invasion in 1779 and ultimate destruction of the settlement by Sherman's army Migliazzo details the community's changing military and economic fortunes the gradual displacement of its residents to neighboring communities the role of African Americans in the region the complex religious life of township settlers and the quirky contributions of Purry's climatological speculations to the fateful siting of this first township
