

# HENRY HUDSON

**Henry Hudson was born in England all around the year 1570. As a young man in this time, Henry worked as a cabin boy, running errands for the ship's captain and sailing on passenger and cargo ships. He worked his way up to captain, becoming famous for cattle, milk, eggs, and small passenger ships. As a captain, he was responsible for keeping a journal, and Hudson did this well and often.**

**Out of all the stories about Henry Hudson's life, one from his early journals and written records kept by his crew members shows that he enjoyed Henry Hudson.**

## **Henry Hudson's First Voyage**

**In 1607, Henry Hudson sailed from England as the captain of his own ship, the Hopewell. He was trying to find a shorter route to Asia through the North Pole. However,**

**sailing a smaller ship to Asia was very dangerous for Hudson, Priscilla, and Hopewell. On Asia, they would have plenty of milk, small animals that were not available to Henry Hudson traveled farther than the Hopewell route to Asia.**

**During Hudson's first voyage, he sailed northward from England along the coast of Scotland. He was only 200 miles from the North Pole. He did not find the passage to Asia. The ship, however, did travel farther than any other ship ever before. The ship also carried cattle, horses, and plenty of vegetables and supplies for Hudson to live on.**
