

A person wearing a red shirt is shown from the chest down, working on a large, flat, light-colored surface, likely a lithography stone. The person's hands are visible, and they appear to be using a tool to work on the surface. The background is dark and out of focus.

Invention of Lithography (Classic Reprint) Alois Senefelder, 2017-10-14 Excerpt from *The Invention of Lithography*. When Senefelder wrote, he had to invent many names for the processes, manipulation methods, and tools. These terms have been translated literally, even where modern practice has adopted other names. About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com. This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. At last, Herr Alois Senefelder has used the hours that he could spare from his continuous experiments and investigations to write down the history of his labors, out of his faithful memory, and also to give a full description of all methods invented by him to this time, accompanied by highly instructive specimen pages, partly made by himself and partly by artistic friends, but all printed either with his own hand or under his direct supervision. Had the stone merely proved available as a substitute for

copper I would have returned to copper as soon as I could afford it despite several advantages of stone and for the following reasons first the necessary weight and thickness of the stones second because the printing process was slower than with copper third because probably I never would have become sufficiently skilled in the difficult manipulation of washing off but chiefly because the necessary spur the originality of the discovery would have been lacking since I remembered that as a child of five or six I had seen a music printery in Frankfurt or Mainz where the notes were etched in black slate stone
