Howard, 2010-04 America is on the brink of a post nuclear war Recent events have catapulted the American military into a state of emergency and American enemies are planning their assault It started when a reporter discovered the horrific truth regarding the Strategic Offensive Reduction Treaty a critical peace agreement between the former Soviet Union and the United States Russia is cheating and even worse they hold the ultimate trump card the one secret that can bring down the worlds super power To exploit this haunting secret Russia has constructed the most dangerous network of secret operatives ever known Brutally trained from birth to act and think like Americans this dynamic organization has been planted on American soil long ago by the former KGB to retrieve information at any cost cause political catastrophe or kill on moment s notice Now they are out of control striking fear into the heart of the Pentagon In response to a devastating political assassination the CIA has assembled a powerful team of agents that do not exist in an attempt to terminate an enemy that cannot be caught by any traditional methods The fate of the free world is in their hands These CIA agents are the last link between liberty and a nuclear holocaust This exhilarating sequel casts the reader further into the furious depths of the intense vendetta and unpredictable deceit where there is a frightful undercover agenda that even the operatives themselves are not aware of and an ominous shadow enemy is introduced The reader is paralyzed with anticipation as the deadly rivalry somersaults out of control after the enemy operatives realize they have been set up by the system of honor they lived by Here the game changes and no one has told them the rules Betrayed by their own country and thrown into a world they can not trust they are forced to depend on the most potent weapon they had ever been trained to use their unnatural minds In a fast paced sequel that spins from one explosive scene to the next the most high tech weaponry is used including speed of light weapons smart chips artificial intelligence and never before exposed government technology and organizations thus introducing a new exciting untapped level of spycraft where nothing is what it seems Anthony R Howard has been an industry recognized consultant for the premier global technology firms for over 12 years Presently he is a leading Advanced Systems Consultant for one of the world s largest Information Technology firms where he was the winner of the National Federal Office Systems Award FOSE Nation s Largest Information Technology Exposition Serving the Government Marketplace and the 2004 winner of Government Computer News Best New Technology Award Several case studies have

Invisible Enemy Arthur Berkeley, 1900 *The Invisible Enemy* Dorothy Crawford, 2002-03-21

Viruses are disarmingly small and simple. None the less, the smallpox virus killed over 300 million people in the 20th century prior to its eradication in 1980. The AIDS virus, HIV, is now the single most common cause of death in Africa. In recent years, the outbreaks of several lethal viruses, such as Ebola and hanta virus, have caused great public concern. In her fascinating and vividly written book, Dorothy Crawford describes all aspects of the natural history of these deadly parasites, explaining how they differ from other microorganisms. She looks at the havoc viruses have caused in the past, where they have come from, and the detective work involved in uncovering them. Finally, she considers whether a new virus could potentially wipe out the human race. This is an informative and highly readable book which will be read by all those seeking a deeper understanding of these minute but remarkably efficient killers.

As a child, I thought war was just a game. As I grew up, I found out that war is very real and its effects devastating. I was taught to believe that war is necessary and grew up believing this. Now that I'm an adult, I'm interested in understanding what causes war and what each of us can do to end it. This book is intended to help you understand conditioning because I think that what we call conditioning is the main cause of conflict inside us, as tension, fear, hate, and anger, and outside as war. If we can become aware of how we are conditioned in our day-to-day life, then we can understand how such conditioning can lead to world conflict. Conditioning and what causes it is the invisible enemy because it is often unseen, hidden. The usual approach to dealing with this enemy is to fight it, which just makes the situation worse. However, if you can understand conditioning, you can be free of it.
