The Jackpot:

The Lottery Game Gerard Shirar, 2020-03-11 Pete Morrisette's wife Cath has passed on and Pete finds himself at a crossroads. No longer willing or able to mow the lawn or dig out the driveway in winter he decides he must find a new way of life and settles on the assisted living community of Brook Haven in Central Massachusetts where life is pleasant and the amenities comfortable. In the beginning he finds things just the way he wants them and he settles into a pleasant but uneventful and somewhat boring way of life with friendly people much like himself with the pressures and expectations of their younger years behind them. However all that changes when Manfred Toomey takes up residence at Brook Haven and Tony Cantangelo enters Pete's life. Things take a decidedly downward turn for Pete as he finds himself caught up in the Lottery game something that will drastically change his life and send his world into topsy-turvy turmoil and as he so applies it into the toilet. In this mystery thriller an elderly man's innocence and gullibility are exploited and the legal system unfairly makes him a scapegoat forever altering a decent elderly man's life.

Hitting the Jackpot Pasi Falk, Pasi Mäenpää, 1999-10 What happens to a person when she or he wins an enormous amount of money? One widespread belief is that hitting the jackpot kick starts a downward spiral and that winners end up isolated from friends and relatives, sad, lonely, and in some scenarios even taking their own lives. Is there any truth to this or is this a myth perpetuated by those normal folks whose winnings are rather less? Either way, winning a lottery jackpot can be perceived as a sort of laboratory experiment that reveals what happens when it suddenly becomes possible to make all one's dreams come true. Beginning with people's personal aspirations and hopes of winning, this engrossing book discusses the fates of lottery millionaires and more broadly what these say about Western culture. The issue is really not winning but the relationship between people's dream worlds and reality. Winners talk about the instant ecstasy of winning, taking possession of the money, future plans, and raising children. How do winners tame the jackpot? Who do they share the secret with? Do they resign from work? Do they travel around the world? What do they buy and what not? The unexpected lottery win signifies a crisis, a break in the continuance of life, a need to take control of one's life as a lottery winner. This book provides a uniquely revealing window through which to examine how personal behaviour patterns of consumption and relationships withstand or succumb to the pressures of a pivotal purportedly felicitous life event.

Mathematics of Keno and Lotteries Mark Bollman, 2018-04-17 Mathematics of Keno and Lotteries is an elementary treatment of the mathematics primarily probability and simple combinatorics involved in lotteries and keno. Keno has a long history as a high advantage, high payoff casino game and state lottery games such as Powerball are

mathematically similar MKL also considers such lottery games as passive tickets daily number drawings and specialized games offered around the world In addition there is a section on financial mathematics that explains the connection between lump sum lottery prizes as with Powerball and their multi year annuity options So called winning systems for keno and lotteries are examined mathematically and their flaws identified

Entrepreneurship in Africa Ven Sriram, David Lingelbach, Tigineh Mersha, Franklyn Manu, 2020-11-16 It is now widely recognized that in regions like Africa for economic and other reasons the public sector has had to disengage and divest from many areas of the economy and allow private enterprise especially scalable start ups and new ventures to enter and flourish if economic development and employment are to grow There is however a training and education gap since entrepreneurship is rarely taught formally at African universities and when it is it is often approached from a Western perspective which may not be appropriate given that African environments are significantly different from most Western ones in terms of economic infrastructure and political considerations This book allows readers to understand the African entrepreneurial context by guiding them through the principal stages in the life of a new venture and offers approaches both Western and indigenous that can inform their entrepreneurial actions It concludes by examining some specialized topics including female youth and social entrepreneurship as well as real estate and technology Exercises throughout the book will enable readers to evaluate their motivations and preparedness for entrepreneurship and learn how to communicate a new venture s key features to potential stakeholders By focusing on the distinctive features of entrepreneurship in the African context and taking a conversational tone this is an informative and practical text that will be useful for students of Global Entrepreneurship and Business as well as actual and prospective entrepreneurs in the private non profit and public sectors
