**The Poetry of Life in Literature** Anna-Teresa Tymieniecka, 2000-09-30

Poetry of life in literature and through literature and the vast territory in between as vast as human life itself where they interact and influence each other is the nerve of human existence Whether we are aware of it or not we are profoundly dissatisfied with the stark reality of life's swift progress onward and the enigmatic and irretrievable meaning of the past And so we dramatise our existence probing deeply for a lyrical and heartfelt yet universally valid sense of our experience It is in great works of literature that we seek those hidden springs that so move us It is in honour of this search that this collection

focuses on the creative imagination at work in literature and aesthetics      **Using Storytelling to Talk About...
