*History of Christian Spirituality* Julian de Cos,2022-08-02 Engagingly written this comprehensive book shows a global vision of the history of Christian spirituality focusing on three fundamental aspects popular piety religious life and the most important authors This work tries to expose how the relationship between the human being and God has evolved over time circumscribing itself fundamentally in the sphere of the Catholic Church This historical overview is very interesting and revealing as it helps us understand the spirituality we currently live and gives us keys to improve it and guide it correctly for the future It is also very illuminating to know the reasons why spirituality has evolved in one way and not another Why for example religious life was born or what circumstances concurred in the development of Marian devotion or why Pope Francis is so valued Obviously the Holy Spirit does not act on a whim or by chance The changes provoked are providential and have a reason And if he has

acted like this in the past can we deduce how he will do it in the future But in history wrong paths have also been taken and serious mistakes have been made That is so because God has given us people free will We are not mere puppets but people responsible for our lives and therefore capable of making good and bad decisions It is well known that remembering the past helps us not to trip over the same stones again Have we learned anything from our mistakes In addition this book tries to be a spiritual help for those who seek to mature interiorly as it collects the wisdom provided by the most significant authors and spiritual currents The monks of the desert the art of icons the Franciscan charism Rhineland mysticism the Carmelite reform Ignatian spirituality or the experience of the new ecclesial Movements they all have something important to offer us because they are the fruit of Providence and bear the seed of God Likewise meditating on the history of spirituality is an inexhaustible source of hope since we discover that despite the many calamities and crises that the Church has suffered God has always enlightened people and communities to be a reference and a guide for others Indeed contemplating how the Spirit of God has accompanied the Church in the past helps us to discover it in the present and encourages us to think hopefully about the future I hope you find this book as exciting to read as it has been to me And above all I hope that it will help you the reader to contemplate God in human history as well as in your own daily life

**A Brief History of Christian Spirituality** Bradley P.

Holt,1997-01-01 *Christian Spirituality Audio Cd* Monica Migliorino Miller,2014-09 The Personal Response of the Christian to God In addition to the doctrinal and theological history of the Catholic faith it is essential that we add the history of Christian spirituality namely the very way that Christians have made their personal response to the God who reveals Himself to His people through Jesus Christ This course surveys important spiritual movements the rich diversity of spiritual insight that has marked the history of Christianity starting from the early Desert Fathers the founding of the great religious orders Christian mysticism 19th and 20th century Catholic spiritual contributions and more In taking a look at the history of Christian spirituality in this way one ultimately comes to a deeper understanding of man's proper relation to God and how he ought to respond to God's love The Uniqueness of Christian Spirituality The primary truth of Christian spirituality is that God entered his world personally as John's Gospel chapter 1:14 states The Word became flesh and dwelt among us God crowns creation with his personal physical presence pouring himself out in a new covenant whereby he has forever united himself to the human race In the Incarnation of the Word the Catholic focus on the material world is vindicated against all those ancient and modern pessimisms that seek to denigrate the dignity of man on one side or remove God from the world of men on the other It is only Christian spirituality that safeguards the truth about man and God since together they are united in a freedom of grace by which the world is saved The History of Christian Spirituality A study of the history of Christian spirituality reveals that the Christian quest for holiness and perfection is marked by certain principles and characteristics The early Christians unlike Christians of today did not accommodate the faith to the age The early Christians converted out of a culture and they lived in contrast to it The life of the earliest Christians was liturgical especially in the sense that as today it centered on the Eucharist the public worship of the Church done in obedience to Christ's command to the Apostles at the Last Supper Do this in remembrance of me The social dimension of Christian life is seen in the earliest Christians who lived in community According to the Acts of the Apostles Christians held all their possessions in common and distributed to everyone according to his need Acts 4:35 A Path for Everyone Perhaps the greatest truth about the achievement of Christian holiness is that it is

open to all who wish to travel its path It is not reserved for the few but is meant for the many One of the greatest voices in the history of Christian spirituality St Bernard of Clairvaux believed that man s own free will was the key to the Christian life and thus perhaps we should take his words to heart No one can be perfect who does not desire to be more perfect and he shows himself to be more perfect in the measure that he aspires to be more perfect      **Beyond Piety** Gilberto

Cavazos-Gonzalez,2010-08-01 Who doesn t want a liberated life Jesus offers us liberation as we grow in a Christian spiritual life But first we need to liberate our concept of Christian Spirituality from ideas that relegate it to Church on Sunday new age self help devotional or ascetical practices or fundamentalist aggression Traditionally Christian spirituality liberates Jesus disciples from personal sin and helps them to challenge sin s social consequences so that once liberated they will work to liberate others Christian spirituality living the Gospel brings good news for the poor liberty for the captives recovery of sight for the blind and freedom for the oppressed This is what Jesus came to do and this is what we as his disciples are called to do as we live our Christian callings in the world Whether we are at home work or play we are called to be Christian Beyond Piety invites readers to grow in their understanding of what it means to be a disciple of Christ More than a book on Franciscan or Hispanic Spirituality this book is about the Christian Spirituality all Christians are called to live It is about our human and Christian identity and the God we believe in It is about getting to know the Word of God and letting that Word get to know us It is about worship and religious devotion and moving beyond piety to Christian action It is about the call to justice and liberation      *A History of Christian Spirituality: The spirituality of the New Testament and the Fathers* ,1963
