The 1970s saw a resurgence of interest in the study of the history of the book, and this was reflected in the work of several scholars. One of the most influential was E. Rieu, who published his *History of the Book* in 1959. This work was a comprehensive survey of the history of the book, from its origins in the ancient world to its development in the modern era. Rieu's work was widely read and highly influential, and it helped to establish the study of the history of the book as a serious academic discipline.
