

A high-quality image of Earth from space, showing the curvature of the planet and the blue atmosphere. The left side of the image shows the Earth's surface at night, with glowing yellow and orange lights representing cities and urban areas. The right side shows the bright blue curve of the day side. A bright, white light source, likely the sun, is positioned on the horizon line, creating a strong lens flare that extends horizontally across the image. The background is a deep black space filled with numerous small, distant stars.
