ranges Author Dick Dorworth weaves an engaging blend of action and reflection in the most thoughtful and literary ski writing to come along in ages This is a book by a skier who has lived it all skied it all and then thought about his sport in fresh and surprising terms This collection contains brings together 19 essays that probe and reveal the very soul of skiing and ends with a poetic piece of short fiction that gives this collection its title Skiing into Modernity Andrew Denning, 2014-11-26 Skiing into Modernity is the story of how skiing moved from Europe's Scandinavian periphery to the mountains of central Europe where it came to define the modern Alps and set the standard for skiing across the world Denning offers a fresh sophisticated and engaging cultural and environmental history of skiing that alters our understanding of the sport and reveals how leisure practices evolve in unison with our changing relationship to nature Denning probes the modernist self definition of Alpine skiers and the sport's historical appeal for individuals who sought to escape city strictures while achieving mastery of mountain environments through technology and speed two central features distinguishing early twentieth century cultures Skiing into Modernity surpasses existing literature on the history of skiing to explore intersections between work tourism leisure development environmental destruction urbanism and more A Bird of Passage Otto Lang, 1994 Otto Lang had a summer home near St Ignatius and was a ski pioneer who directed the famed Sun Valley Ski School The legendary skier also was a film director The Complete Book of Cross-country Skiing and Ski Touring Arthur Liebers, 1974 **Skiing Throughout History** Olav Bø, 1993 **The Unofficial Guide to Skiing in the West** Lito Tejada-Flores, Peter Shelton, Seth Masia, Bob Sehlinger, 1997-10 The most detailed authoritative guide available written by experts on the southern and northern Rockies and the Cascades Maps **Skis and Andes** Eugene Du Bois, 1937 *Devil's Bargains* Hal Rothman, 1998 The West is popularly perceived as America's last outpost of unfettered opportunity but twentieth century corporate tourism has transformed it into America's land of opportunism From Sun Valley to Santa Fe towns throughout the West have been turned over to outsiders and not just to those who visit and move on but to those who stay and control Although tourism has been a blessing for many bringing economic and cultural prosperity to communities without obvious means of support or allowing towns on the brink of extinction to renew themselves the costs on more intangible levels may be said to outweigh the benefits and be a devil's bargain in the making Hal Rothman examines the effect of twentieth century tourism on the West and exposes that industry's darker side He tells how tourism evolved from Grand Canyon rail trips to Sun Valley ski weekends and Disneyland vacations and how the post World War II boom in air travel and luxury hotels capitalized on a surge in discretionary income for many Americans combined with newfound leisure time From major destinations like Las Vegas to revitalized towns like Aspen and Moab Rothman reveals how the introduction of tourism into a community may seem innocuous but residents gradually realize as they seek to preserve the authenticity of their communities that decision making power has subtly shifted from the community itself to the newly arrived corporate financiers And because tourism often results in a redistribution of wealth and power to outsiders observes Rothman it

represents a new form of colonialism for the region By depicting the nature of tourism in the American West through true stories of places and individuals that have felt its grasp Rothman doesn't just document the effects of tourism but provides us with an enlightened explanation of the shape these changes take Deftly balancing historical perspective with an eye for what's happening in the region right now his book sets new standards for the study of tourism and is one that no citizen of the West whose life is touched by that industry can afford to ignore

Ski to Die Jennifer Woodlief, 2005 Bill Johnson took the world by storm at the 1984 Sarajevo Winter Olympics coming out of nowhere to win the first American gold medal in downhill skiing He went on to dominate the World Cup races that same year His success made him an overnight celebrity but his fame was fleeting He never won another race and personal tragedy seemed to follow him at every turn With his post Olympic life spiraling out of control Johnson decided to do the unthinkable make a comeback at the age of forty He had his motto Ski to Die tattooed on his right bicep In a race at Big Mountain fearless and in the lead with one turn to go Johnson crashed face first into the icy mountain at fifty miles per hour Ski to Die is a story about the cost of chasing dreams It is about glory and the attempt to recapture it once it is lost More than a cautionary tale Ski to Die is a rise fall rise again story because against all odds Bill Johnson's story doesn't end at Big Mountain
