Blue Bird Fun Facts

Michelle Hawkins,2020-09-24 Do you know that Bluebirds can spot an insect over 50 feet away And do you know that every little habit of this sweet little bird can become a story to tell It is sometimes difficult to make our children understand the beauty of nature to make them appreciate the small things the beauty of a flower the freshness of the air the scent of grass Many times we are not fortunate to be in contact with nature far from a meadow closed in the cities but so often while being able to look out from our balcony in a beautiful country house we know how to observe but do not appreciate the beauty of creation Know the details and habits of a bird as common as it is surprising through a simple path and that fuels the interest and curiosity of your child That s the purpose of this book But beware prepare for the challenge You will have to be able to answer the questions that your child will ask you by showing off their deep knowledge in the microworld of the Doves Mom do you know how much a Bluebird weighs I do Hey dad do you know how the nests are shaped I do Grandpa do you know how far apart Bluebird house should be I do Grandma do you know how many eggs Bluebirds lay I do Sarah you re my big sister and you ve studied a lot but I bet you don t know what baby Bluebirds are called I know that You don t need anything else just one click and you will let your child live a magical new adventure with his new friend BlueBirds and the magic natural world of songbirds
