Pryke,2016-06-15 No creature has quite the sting in our mythology and folklore as the scorpion From the dawn of human civilization they have been a dangerous figure in our imaginations poisonous precise and deadly quiet but as Louise M Pryke shows in this book their bad reputation has overshadowed many exceptional qualities Scurrying across hundreds of millions of years and across every continent except Antarctica this book gives the scorpion its due as one of nature s longest lasting survivors Indeed scorpions are older than dinosaurs An ancient arthropod their form notable for its pair of pincers and an elegant tail that holds a menacing stinger high in the air in a permanent striking position hasn t changed since prehistoric times though today there are some 1700 different species Throughout our existence scorpions have served as a powerful cultural and religious symbol sometimes dangerous sometimes protecting from the Egyptian goddess Serket to Zodiac astrology to folk medicine A fascinating tour that takes us from the art of North Africa to the American Civil War to the markets of Beijing Scorpion is an homage to one of earth s oldest residents

Scorpio Ascendant Secrets Saket Shah, 2020-01-05 There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, maybe because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, maybe because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Easter horizon at the time and place of birth. When seen from Earth, the sky seems to move so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.
