Stranger Than Science Frank Edwards, 1992-05-01 Presents accounts of true and unusual incidents that are unable to be explained by modern science Stranger Than Science Stories and Facts Martin K. Ettington, I first read the book Stranger Than Science By Frank Edwards when I was about 10 years old and it was an important turning point in my life The book has many stories of strange events and it really built my curiosity about the world Later I went to Engineering School and also had many paranormal experiences from learning meditation and other practices I have now researched and written over 100 books on strange and mysterious phenomena My fascination with strange things has become a major passion in my life This book is kind of an updated version of that famous Frank Edwards book based on my experiences and research of many phenomena I m sure you will find the stories in this book fascinating since they are all samples of much of what I experienced researched and have written about It contains over 32 chapters of my favorite stories on various topics to provide a question mark for your beliefs and assumptions about the world and universe we live in When you finish this volume maybe you will see my point of view which is that as much as we think we know about this world and the universe there are still many mysteries and strange things out there

Radionics and Life Force Technologies Martin K. Ettington, Radionics is the term for machines which manipulate life forces This is often for healing or increasing psychic perceptions The Author is an engineer and has many decades of experience with the paranormal and well as time learning and experimenting with radionics devices from the 1970s While radionics devices are often considered pseudoscience those opinions don t take into account the sensitivities of individuals who have incredible paranormal and healing abilities In my first year of engineering school at Rensselaer Polytechnic Institute in Troy New York I met a man who became my mentor in the Paranormal and other things too This was in 1973 I learned to meditate and how to open my crown chakra to take in vital forces which allowed me to do many things including healing others In addition I also met another middle aged guy at a Psychic Fair in Saratoga Springs New York He was a researcher in the arcane field of Kirlian Photography In this book the history of radionics is discussed some of the major influencers on that history how these devices are used for healing and even some plans for building radionics devices My hope is that this book will give you a good grounding in radionics to learn to use it productively for your own efforts Stranger Than Science Stories and Facts-Volume Two Martin K Ettington, 2022-03-30 This book is my second on stranger than science stories and facts The idea is from the book Stranger Than Science by Frank Edwards that I read when I was a kid It made a great impression on me since it caused me to be curious about all of the unknown facts in the world In this Volume Two I ve gone through my 120 plus books again to find interesting subjects I ve either experienced or researched which were not discussed in the first book My goal is to open the eyes of the reader to facts and stories about the unknown they may not know about Hopefully this will lead you to become more open minded and think seriously about new things which may not have been part of your life before Here you will read stories about the Paranormal Spiritual

Enlightenment Legendary animals like Dragons giant snakes living dinosaurs ball lightning alien anti gravity technology improving longevity and much more I promise you will not be bored with the materials we cover here After reading this book I hope you can see that our world is truly mysterious and the more we know the more questions we have and the more there is to know **The Spiritual Enlightenment of an Engineer** Martin K. Ettington, I've written quite a few books about spirituality and my experiences and beliefs in our abilities to expand our consciousness through spiritual development practices meditation and the paranormal This book includes my experiences with paranormal abilities acquired from the spiritual development process and different enlightenment experiences Having been raised in a technical family and gone to engineering school my perspective is pretty unique since I developed both traditional technical knowledge of the world while I was also going through the spiritual development and enlightenment process There are many engineers and scientists who are also religious but I've found that technical people who are as deeply into spiritual enlightenment practices and paranormal experiences are pretty rare What I've found is that this dual background has given me more clarity about the world we live in and better objectivity in many cases regarding strange or unusual phenomena The theme of this book is to review how I went through this dual track system of learning in my life to become both a traditional engineer and to have fairly adept knowledge of spiritual and paranormal experiences **Strange Tales from National Parks** Martin K. Ettington, National Parks here and abroad have an unusual number of strange scary and weird activities going on It may be because these areas cover some of the most hidden and still natural and undisturbed locations in the world These parks offer undisturbed areas where man does not intrude normally and many activities can be hidden there The stories in this book are mostly by Park Rangers who spent years in the outback of these parks and tell of their unusual and sometimes very scary experiences I've divided up these stories mainly by types like missing persons Bigfoot sightings Aliens and UFOs and more Some experiences are so weird or unusual they were hard to categorize so they are in the chapter titled Random Stories From my own experiences camping the wilderness I know that you need to be prepared for the unexpected All of these stories were reported as true but who is to say what the real truth is **The Ancient Underground Wall in Rockwall, Texas** Martin K. Ettington, The underground rock wall in Rockwall Texas has fascinated me for years I've read everything I could online about it Recently I moved from Los Angeles to Denton Texas which is only about an hour drive from Rockwall So I went there and spent an hour with the Rockwall County Museum Curator and learned a lot more about the structure Was also able to examine and take pictures of the wall section moved from the actual wall and reconstructed outside the museum In this book I've related the history of the wall's discovery excavations interesting items and structures found on or near the wall and information about possible giants who might have built it There are a lot of unanswered questions about this structure which still need to be learned Those questions are listed near the end of this book **Strange Sightings on the Moon, Mars, and In Space** Martin K. Ettington, Most of my books on Aliens and UFOs are about evidence of them existing

on Earth However there are also many unusual sightings in space which is the subject of this book These sightings cover the following locations UFOs flying around the International Space Station Bases and UFOs on the Moon Strange sightings on Mars taken by our Martian rovers In deep space elsewhere in the Solar System These pictures may or may not be real alien life or UFO technologies but they are fascinating none the less Some of the sightings like the face in Cydonia are just a result of our natural abilities to see living forms in many types of pictures But some may turn out to be real phenomena Certainly some of these sightings can't be anything other than real UFOs If you want to learn about strange sightings in the Solar System outside of Earth then this book is for you

18 Long Lived Communities around the World Martin K. Ettington, This

book is about communities and cities around the world where people live to very old ages It is divided into two groups Those communities who have the longest lived peoples in the world Lots of lifestyle and diet data is included for them The second group are another set of communities which have high average ages which people live to but are not quite the outliers that the first group is I've also tried to provide some general lifestyle and diet guidelines to give an idea of why these places are different for longevity purposes The first four communities were also profiled in my book Diets and Lifestyles of the World's Oldest Peoples 32 Longevity Recipes which goes into lot of details about these four locations including traditional recipes Overall I think you will get a better idea of what the reasons are why people live a long time in these locations around the world which may give you ideas about adapting your lifestyle and diets to have maximum longevity

A Guide to Longevity Foods, Diets, and Supplements Martin K. Ettington, There is great interest out there in what people can do to improve their longevity I've been writing books about longevity for fourteen years and I realized there was one topic I had not really covered in detail That topic is what are the foods and supplements we can take which will help make us healthy enough to lengthen our lives Improving individual longevity is not just about foods and supplements There are a lot of factors which all affect longevity so I have a chapter here which talks about my work The 10 Principles of Personal Longevity which covers those issues in more detail In addition there are some specific physical issues like telomeres inflammation and oxidative stress which also affect chronic diseases and therefore longevity and these are discussed in detail I also think it is pertinent to see what long lived communities eat so I've copied some of the key data and conclusions from my book on four long lived communities around the world to see what their diets are Some recipes of their traditional foods are also included Foods and supplements which have been known from historical times and today are discussed in detail for you to learn what the wisdom of the ages and science knows about the correct foods and supplements to eat After reading this book you will have new ideas about the food diets and supplements you can eat to help you live a much longer and healthier life**Creating Your Own Reality** Martin K. Ettington, There are a lot of books written on the topic of visualization Mine is a little different As an engineer and experiencer of many paranormal events I've got a different perspective enabled by my research and experience There are many subjects I've studied that indicate that the mind really can affect our reality In this book I will review why my

research and experience says that visualization really works and some lessons on how to do it The Reality we live in is much more malleable than we think and so why not set our goals and purposes to get that reality to work the way we want it Techniques included in this book include various visualization techniques and building your own vision board The pursuit of knowledge under difficulties [by G.L. Craik]. Continuation George Lillie Craik,1881 Os lusiadas Luís de Camões,1880

Os Lusiadas Richard Francis Burton,1880 The London Quarterly Review ,1872 **Strange Events Beyond Human Understanding** Sandor Robert Tralins,1966 Harper's New Monthly Magazine ,1874 The Book Buyer ,1884 A review and record of current literature The Church Rambler Harold Lewis,1878 **Potter's American Monthly** ,1880
