Strangers Citizens:

The Commentaries of Origen and Jerome on St. Paul's Epistle to the Ephesians Ronald E. Heine, 2002-12-05 This important study provides the first English translation of both the surviving fragments of Origen's Commentary on Ephesians and of the complete text of Jerome's Commentary on Ephesians. The two translations are placed parallel to one another where they treat the same texts in Ephesians thus showing Jerome's extensive dependence on Origen's commentary. By using collateral texts from other works of Origen, Jerome and Rufinus, the author is able to show Jerome's dependence on Origen in numerous passages in his commentary where the Greek text of Origen's commentary is lost. The translation is accompanied by Heine's illuminating commentary and a substantial introduction sets the works in their historical context. The book makes a significant contribution not only to scholarship on Origen and Jerome but also to the wider question of the interpretation of scripture in the early Christian centuries.

Contestatory Cosmopolitanism Tom Bailey, 2018-10-11 Contemporary global politics poses urgent challenges from humanitarian migratory and environmental problems to economic, religious and military conflicts that strain not only existing political systems and resources but also the frameworks and concepts of political thinking. The standard cosmopolitan response is to invoke a sense of global community governed by such principles as human rights or humanitarianism, free or fair trade, global equality, multiculturalism or extra-national democracy. Yet the contours, grounds and implications of such a global community remain notoriously controversial and it risks abstracting precisely from the particular and conflictual character of the challenges which global politics poses. The contributions to this collection undertake to develop a more fruitful cosmopolitan response to global political challenges, one that roots cosmopolitanism in the particularity and conflict of global politics itself. They argue that this contestatory cosmopolitanism must be dialectical, agonistic and democratic; that is, its concepts and principles must be developed immanently and critically out of prevailing normative resources; they must reflect and acknowledge their antagonistic roots and they must be the result of participatory and self-determining publics. In elaborating this alternative, the contributions also return to neglected cosmopolitan theorists like Hegel, Adorno, Arendt, Camus, Derrida and Mouffe and reconsider mainstream figures such as Kant and Habermas. This collection was originally published as a special edition of *Critical Horizons*.

The New Expatriates Anne-Meike Fechter, Katie Walsh, 2013-09-13 While scholarship on migration has been thriving for decades, little attention has been paid to professionals from Europe and America who move temporarily to destinations beyond the West. Such migrants are marginalised and depoliticised by debates on immigration policy and thus there is an urgent need to develop nuanced understanding of these more privileged movements. In many ways, these are the modern-day equivalents of colonial settlers and expatriates, yet the continuities in their migration practices have rarely been considered. *The New Expatriates* advances our understanding of contemporary mobile professionals by engaging with postcolonial theories of race, culture and identity. The volume brings together authors and research from across a wide range of disciplines seeking to evaluate the significance

of the past in shaping contemporary expatriate mobilities and highlighting postcolonial continuities in relation to people practices and imaginations Acknowledging the resonances across a range of geographical sites in Asia Africa and the Middle East the chapters consider the particularity of postcolonial contexts while enabling comparative perspectives A focus on race and culture is often obscured by assumptions about class occupation and skill but this volume explicitly examines the way in which whiteness and imperial relationships continue to shape the migration experiences of Euro American skilled migrants as they seek out new places to live and work This book was originally published as a special issue of the Journal of Ethnic and Migration Studies

In the "Stranger People's" Country Mary Noailles Murfree,1891 In the Stranger People s Country tells the story of contact between a late nineteenth century Tennessee mountain community and an amateur archaeologist who wants to open the graves of the prehistoric leetle stranger people a source of myth to the mountaineers A politician looking for votes in the country has invited the archaeologist Shattuck to travel into the mountains with him but a mountain woman Adelaide Yates threatens to shoot anyone who attempts to violate the graves The courageous mountaineer Felix Guthrie joins the defense of the stranger people and competes with Shattuck for the attention of another mountain woman Letitia Pettingill
