investment companies still suspend the share redemption respectively again The problem is a high information asymmetry Many investors are informed in an insufficient way New investors need to be appealed and activated to achieve the goal of new issuance of shares A sustainable success of the fund products for investors can only be achieved by new guidelines for liquidity management and the help of a competency based holistic marketing strategy Mr Wolfgang Schuble CDU wants to achieve a minimum investment horizon for open ended funds but this would endanger the main advantage of this asset class the daily possibility of redemption Therefore it would be better to implement the law only for institutional investors However it is questionable whether this product can further exist in this form The Term paper deals with open ended funds which are mainly launched for private investors Aside exists special funds which are launched for the specific needs of institutional investors The aim of the paper is to figure out which instrumental strategies are applied pursued by open ended funds
