

STRATEGIC ASSESSMENT

Strategic Assessment In War

Risa Brooks

Strategic Assessment In War:

Strategic Assessment in War Scott Sigmund Gartner, 1997 How do military organizations assess strategic policy in war In this book Scott Gartner develops a theory to explain how military and government leaders evaluate wartime performance how much they change strategies in response to this evaluation and why they are frequently at odds when discussing the success or failure of strategic performance Blending history decision theory and mathematical modeling Gartner argues that military personnel do reevaluate their strategies and that they measure the performance of a strategy through quantitative dominant indicators But different actors within a government use different indicators of success some will see the strategy as succeeding when others see it as failing because of their different dominant indicators Gartner tests his argument with three case studies the British shift to convoys in World War I following the German imposition of unrestricted submarine warfare the lack of change in British naval policy in the Battle of the Atlantic following the German introduction of Wolf Packs in World War II and the American decision to deescalate in Vietnam after the Tet Offensive He also tests his approach in a nonwar situation analyzing the Carter Administration's decision to launch the hostage rescue attempt In each case his dominant indicator model better predicts the observed behavior than either a standard organization or an action reaction approach

Shaping Strategy Risa Brooks, 2008-04-13 Introduction The significance of strategic assessment Explaining variation in strategic assessment Egypt in the mid 1960s Egypt in the 1970s Britain and Germany and the First World War Pakistan and Turkey in the late 1990s U S postconflict planning for the 2003 Iraq War Conclusion Findings and implications

Strategic Assessment National Defense University. Institute for National Strategic Studies, 1995 *Strategic Assessment 1999*, 1999 **World View** Steven Metz, Earl H. Tilford, 1994 Every year the analysts at the Strategic Studies Institute prepare current strategic assessments for their particular areas of interest These assessments are the bedrock of the annual SSI Study Program This year's assessments seem especially crucial as the strategic situation throughout the world is far more complex and fraught with danger than many may realize The dramatically altered world of the post cold war period is not the peaceful and tranquil scene many had longed for and thought had indeed arrived From the Danube eastward along the southern boundaries of what used to be the Soviet Union ethnic conflict is rampant Russia remains very much an enigma wrapped in a riddle but as always Russian national interests are paramount in Kremlin thinking While there are those in the Middle East who earnestly seek peace there are others who are determined to support old hatreds and the policies that issued from them In the Far East North Korea has resisted U N demands to inspect its nuclear production facilities China is modernizing its military forces and Japan continues to seek new markets In this dynamic international setting a technological revolution is propelling many nations the United States being foremost among them from the industrial age into the information age The implications for military force structures and strategies are as enormous as they are uncertain **Strategic Assessment ...**, 1995 Strategic Assessment, 1997 *Strategic Assessment in War* Scott

Sigmund Gartner,1992 Asia-Pacific David Lai,2013 Dr David Lai provides a timely assessment of the geostrategic significance of Asia Pacific His monograph is also a thought provoking analysis of the U S strategic shift toward the region and its implications Dr Lai judiciously offers the following key points First Asia Pacific which covers China Northeast Asia and Southeast Asia is a region with complex currents On the one hand there is an unabated region wide drive for economic development that has been pushing Asia Pacific forward for decades On the other this region is troubled with aside from many other conflicts unsettled maritime disputes that have the potential to trigger wars between and among Asia Pacific nations Second on top of these mixed currents China and the United States compete intensely over a wide range of vital interests in this region For better or for worse the U S China relationship is becoming a defining factor in the relations among the Asia Pacific nations Third the U S strategic shift toward Asia Pacific is as President Obama puts it not a choice but a necessity Although conflicts elsewhere especially the ones in the Middle East continue to draw U S attention and consume U S foreign policy resources the United States is turning its focus toward China and Asia Pacific Fourth in the mid 2000s the United States and China made an unprecedented strategic goodwill exchange and agreed to blaze a new path out of the tragedy that often attends great power transition Fifth at this time of U S strategic reorientation and military rebalancing toward Asia Pacific the most dangerous consideration is that Asia Pacific nations having disputes with China can misread U S strategic intentions and overplay the U S card to pursue their territorial interests and challenge China Finally territorial dispute is becoming an urgent issue in the Asia Pacific

Strategic Analysis ,1988-03 *Asia-Pacific* David Lai,2013 This monograph provides a timely assessment of the geostrategic significance of Asia Pacific and offers as a thought provoking analysis of the U S strategic shift toward the region and its implications with several key points First Asia Pacific which covers China Northeast Asia and Southeast Asia is a region with complex currents On the one hand there is an unabated region wide drive for economic development that has been pushing Asia Pacific forward for decades On the other this region is troubled with aside from many other conflicts unsettled maritime disputes that have the potential to trigger wars between and among Asia Pacific nations Second on top of these mixed currents China and the United States compete intensely over a wide range of vital interests in this region For better or for worse the U S China relationship is becoming a defining factor in the relations among the Asia Pacific nations Third the U S strategic shift toward Asia Pacific is as President Obama puts it not a choice but a necessity Although conflicts elsewhere especially the ones in the Middle East continue to draw U S attention and consume U S foreign policy resources the United States is turning its focus toward China and Asia Pacific Fourth in the mid 2000s the United States and China made an unprecedented strategic goodwill exchange and agreed to blaze a new path out of the tragedy that often attends great power transition Fifth at this time of U S strategic reorientation and military rebalancing toward Asia Pacific the most dangerous consideration is that Asia Pacific nations having disputes with China can misread U S strategic intentions and overplay the U S card to pursue their territorial interests and challenge

China Finally territorial dispute is becoming an urgent issue in the Asia Pacific Strategic Assessment (1997) Hans Binnendijk, Patrick L. Clawson, 1997-10 This Assessment is aimed at policymakers analysts and members of the public who want a serious summary of the threats facing the U S in the next decade Contents major powers Russia Europe China Japan North America significant regional contingencies Persian Gulf Korean peninsula Arab Israel conflict India Pakistan proliferation troubled states Balkans Sub Saharan Africa Middle Eastern radicalism transnational problems international terrorism international crime refugees migration and population force structure threat assessment key military missions force structure Illustrated Theory of War and Strategy J. Boone Bartholomees (jr.), 2008 **Bernard Brodie and the Foundations of American Nuclear Strategy** Barry Howard Steiner, 1991 Steiner analyzes how and why Brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom

Naval War College Review Naval War College (U.S.), 1998 Naval War College Review , 2008 **Encyclopedia of War and American Society** Peter Karsten, 2005-11-18 The impact of war on American society has been extensive throughout our nation s history War has transformed economic patterns government policy public sentiments social trends and cultural expression SAGE Reference is proud to announce the Encyclopedia of War and American Society This Encyclopedia is a comprehensive highly credentialed multidisciplinary historical work that examines the numerous ways wars affect societies The three volumes cover a wide range of general thematic categories issues and topics that address not only the geopolitical effects of war but also show how the U S engagement in national and international conflicts has affected the social and cultural arena Key Features Explores and analyzes three types of effects of war direct effects interactive relationships and indirect effects to illustrate the range of connections between war and American society Probes the correlations between our wartime expeditions and the experiences of the greater American society not limited to just the war years but also demonstrates how the wartime event impacted society after the conflicts ended Offers readers a host of documents including passages from letters diaries autobiographies official documents novels poems songs and cartoons as well as images graphs and a number of tables of relevant data surveys and public opinion polls to extend their research capabilities Concentrates mostly on the last 100 years to give more coverage on this often neglected wartime era Key Themes Arts and Culture Civil Military Relations Economy and Labor Education both military and civilian Environment and Health Journalism and Media Law and Justice Military Leaders and Figures Planning Command and Control Race Gender and Ethnicity Religion Science and Technology Veterans Issues and Experiences The Wars themselves and their civilian and military leaders The Encyclopedia of War and American Society is a must have reference for all academic libraries as well as a welcome addition to any social science reference collection **The Luftwaffe** James S. Corum, 1997 This study provides

an appraisal of Germany's air forces from the post World War I era through the early stages of World War II The author demolishes several myths surrounding the Luftwaffe including the belief that they had no ideas beyond the support of ground forces

World View Earl H. Tilford, 1997 The analysts at the Strategic Studies Institute SSI assess the strategic equation They address those issues and factors that will affect U S national security strategy over the next 12-18 months The strategic context in 1997 will be similar to that of 1996 In that it remains complex and uncertain This year the way the analysts assess the world of the 21st century is even more important because the Army along with the other services are engaged in the congressionally mandated Quadrennial Defense Review QDR These conceptions of the future have implications not only for Force XXI and Army XXI but also for the kind of Army that will serve the nation when Army XXI systems near obsolescence in 15-20 years Getting the strategic context about right is important because the Army After Next although highly capable will also be small by comparison to those forces of only a few years past Furthermore decisions made in 1997 as to weapons development and force structure will be evident in the Army of 2010-2015

Strategic Analysis of Auctions Robert B. Wilson, 1988

Whispering the Strategies of Language: An Emotional Quest through **Strategic Assessment In War**

In a digitally-driven earth where screens reign great and quick transmission drowns out the subtleties of language, the profound secrets and emotional nuances hidden within words frequently go unheard. Yet, nestled within the pages of **Strategic Assessment In War** a captivating literary prize pulsating with fresh thoughts, lies an extraordinary journey waiting to be undertaken. Composed by an experienced wordsmith, that marvelous opus encourages viewers on an introspective trip, delicately unraveling the veiled truths and profound affect resonating within the fabric of every word. Within the psychological depths of the poignant evaluation, we shall embark upon a genuine exploration of the book is key subjects, dissect its fascinating writing style, and yield to the effective resonance it evokes deep within the recesses of readers hearts.
