Technology In Context Technology Assessment For Managers:

Technology in Context Ernest Braun,1998 Most managers know very little about the technology they introduce into their firms often preferring to leave such decisions to a small band of technological experts As a result large amounts of time and money are often wasted on inappropriate and inefficient systems The cost of retraining and reorganising can also be prohibitive if the new technology does not deliver the desired results In a business environment where technology is of increasing importance the non technical manager cannot afford to remain in the dark Technology in Context provides a toolkit of approaches to this difficult subject Subjects covered include the fundamental concepts required for the management of technology the gathering of information in a firm to support strategic decisions on technology technology assessment in the public domain the wider social implications of technology problems associated with technology from the danger of environmental degradation to employment and skills *Christian Ethics in a Technological Age* Brian Brock,2010-06-28 Through close analysis of the historical and conceptual roots of modern science and technology Brian Brock here develops a theological ethic addressing a wide range of contemporary perplexities about the moral challenges raised by new technology *Technology Management* Dilek Çetindamar,Robert Phaal,2017-09-16 This is an exciting and innovative core textbook that focuses on the micro level analysis of TM as a dynamic capability Now in its second edition and fully updated throughout it systematically addresses the major tools and techniques needed for businesses to successfully conduct TM activities Arguing that there is no single best way to manage technology in a company and there is no mechanistic route to success this accessible handbook provides a wealth of resources designed to increase the dynamic capability of an organisation Written by a highly experienced team of authors from the Universities of Sabanci and Cambridge Technology Management is the perfect companion for undergraduate and postgraduate students on a variety of business management and engineering degree courses It is also suitable for practitioners seeking to progress their professional development and industry knowledge **Forecasting and Management of Technology** Alan L. Porter,Scott W. Cunningham,Jerry Banks,A. Thomas Roper,Thomas W. Mason,Frederick A. Rossini,2011-06-09 Published in 1991 the first edition of Forecasting and Management of Technology was one of the leading handful of books to deal with the topic of forecasting of technology and technology management as this discipline was emerging The new revised edition of this book will build on this knowledge in the context of business organizations that now place a greater emphasis on technology to stay on the cutting edge of development The scope of this edition has broadened to include management of technology content that is relevant to now to executives in organizations while updating and strengthening the technology forecasting and analysis content that the first edition is reputed for Updated by the original author team plus new author Scott Cunningham the book takes into account what the authors see as the innovations to technology management in the last 17 years the Internet the greater focus on group decision making including process management and mechanism design and desktop

software that has transformed the analytical capabilities of technology managers Included in this book will be 5 case studies from various industries that show how technology management is applied in the real world

Engineering Management Fausto Pedro García Márquez, Benjamin Lev, 2013-03-06 The Engineering Management book synthesises the engineering principles with business practice i e the book provides an interface between the main disciplines of engineering technology and the organizational administrative and planning abilities of management It is complementary to other sub disciplines such as economics finance marketing decision and risk analysis etc This book is intended for engineers economics and researchers who are developing new advances in engineering management or who employ the engineering management discipline as part of their work The authors of this volume describe their pioneering work in the area or provide material for case studies successfully applying the engineering management discipline in real life cases

Hospital-Based Health Technology Assessment Laura Sampietro-Colom, Janet Martin, 2017-01-23 A timely work describing how localized hospital based health technology assessment HB HTA complements general arms length HTA agency efforts and what has been the collective global impact of HB HTA across the globe While HB HTA has gained significant momentum over the past few years expertise in the field and information on the operation and organization of HB HTA has been scattered This book serves to bring this information together to inform those who are currently working in the field of HTA at the hospital regional national or global level In addition this book is intended for decision makers and policy makers with a stake in determining the uptake and decommissioning of new and established technologies in the hospital setting HTA has traditionally been performed at the National Regional level by HTA Agencies typically linked to governments Yet hospitals are the main entry door for most health technologies HTs Hospital decision makers must undertake multiple high stakes investment and disinvestment decisions annually for innovative HTs usually without adequate information Despite the existence of arms length HTA Agencies inadequate information is available to hospital decision makers either because relevant HTA reports are not yet released at the time of entry of new technologies to the field or because even when the report exists the information contained is insufficient to clarify the contextualized informational needs of hospital decision makers Therefore there has recently been a rising trend toward hospital based HTA units and programs These units programs complement the work of National Regional HTA Agencies by providing the key and relevant evidence needed by hospital decision makers in their specific hospital context and within required decision making timelines The emergence of HB HTA is creating a comprehensive HTA ecosystem across health care levels which creates better bridges for knowledge translation through relevance and timeliness
