Ethical Consensus and the Truth of Laughter Hub Zwart, 1996 We participate in moral debate

instead of taking established morality for granted because of our discontent with the moral discourse already existing We feel that something is distorted or concealed that something remains to be said One of the strategies to expose the deficiencies of established discourse is critical argument but under certain specific historical circumstances the apparent self evidence of established moral discourse has gained such a dominance has acquired such an ability to conceal its basic vulnerability that its validity simply seems beyond contestation Notwithstanding our discontent we remain unable to challenge the established truth effectively Then all of a sudden its vulnerability is revealed and this is the experience of laughter Moral criticism is preceded by laughter In fact all crucial transformations that emerged in the history of morality were accompanied by and made possible by laughter and moral criticism is basically and originally a comic genre After drawing an outline of the present moral regime in chapter one the moral significance of laughter is recovered with the help of four philosophers of laughter in chapter two namely Bakhtin Nietzsche Bataille and Foucault Laughter allows reality to appear in a certain light it contains a basic truth it is a philosophical principle in its own right that cannot be reduced to or identified with the truth of science In the subsequent chapters it is shown how three crucial moral transformations occurring in the fourth century B C the sixteenth century A D and the nineteenth century A D evolved out of an experience of laughter articulated by three outstanding protagonists of laughter presented in this book Socrates Luther and Ibsen Finally the significance of the

experience of laughter in view of the present is discussed The Times Parliamentary Debates ,1893 The People's Bible
