Co-Branding Strategies for Smart Luxury Products Tarnanidis, Theodore, Sousa, Bruno, Vlachopoulou, Maro, Papachristou, Evridiki, Kittu Manda, Vijaya, 2025-07-29 Co-branding is a marketing strategy that brings together two brands to harness their strengths and create a product with greater value. The importance of innovation, exclusivity and brand reputation is especially significant in industries like luxury smart consumer products. In multicultural markets it refers to a strategic alliance between a luxury brand and a technology brand designed to appeal to a range of cultural preferences, values and consumption patterns. Companies can now deliver innovative products while maintaining exclusivity thanks to the fusion of luxury and technology in their branding strategies. By using this approach the product can resonate with global audiences while still maintaining the exclusivity and prestige associated with luxury. *Co-Branding Strategies for Smart Luxury Products* examines the use of co-branding strategies, the advancement of smart consumer products and the convergence of luxury branding and technology in marketing. It discusses how co-branding can be used in marketing to personalize content, enhance targeting and optimize campaigns. Covering topics such as consumer loyalty, sustainable business initiatives and internet freedom, this book is an excellent resource for consultants, business owners, marketing practitioners, policymakers, researchers, academicians and more.
