**The Merrill Studies in The Octopus** Richard Allan Davison,1969 *Magill's Bibliography of Literary Criticism:*

*Longus to Sexton* Stephen L. Hanson,Patricia King Hanson,1979 [Working the Garden](#) William Conlogue,2003-01-14 In 1860 farmers accounted for 60 percent of the American workforce in 1910 30 5 percent by 1994 there were too few to warrant a separate census category The changes wrought by the decline of family farming and the rise of industrial agribusiness typically have been viewed through historical economic and political lenses But as William Conlogue demonstrates some of the most vital and incisive debates on the subject have occurred in a site that is perhaps less obvious literature Conlogue refutes the critical tendency to treat farm centered texts as pastorals arguing that such an approach overlooks the diverse ways these works explore human relationships to the land His readings of works by Willa Cather Ruth Comfort Mitchell John Steinbeck Luis Valdez Ernest Gaines Jane Smiley Wendell Berry and others reveal that through agricultural narratives authors have addressed such wide ranging subjects as the impact of technology on people and land changing gender roles environmental destruction and the exploitation of migrant workers In short Conlogue offers fresh perspectives on how writers confront issues whose site is the farm but whose impact reaches every corner of American society

**Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States** F. H. Hinsley,Francis Harry

Hinsley,1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men's efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War

**Fighting Words** Ira Wells,2013-06-25 An entirely new understanding of what literary naturalism is and why it matters Ira Wells countering the standard narrative of literary naturalism's much touted concern with environmental and philosophical determinism draws attention to the polemical essence of the genre and demonstrates how literary naturalists

engaged instead with explosive political and cultural issues that remain fervently debated today Naturalist writers Wells argues in Fighting Words are united less by a coherent philosophy than by an attitude a posture of aggressive controversy which happens to cluster loosely around particular social issues To an extent not yet appreciated literary naturalists took controversial and frequently contrarian positions on a wide range of literary political and social issues Frank Norris for instance famously declared the innate inferiority of female novelists and frequently wrote about literature in tones suggestive of racial warfare Theodore Dreiser once advocated with deadly earnestness a program of state run infanticide for disabled or unwanted children Richard Wright praised the Stalin Hitler agreement of 1939 as a great step toward peace While many of their arguments were irascible attention seeking and self consciously inflammatory the combative spirit that fueled these outbursts remains central to the canonical texts of the movement Wells considers Frank Norris's *The Octopus* in light of the emerging discourses of environmentalism and ecological despoliation and examines the issue of abortion in Theodore Dreiser's *An American Tragedy* A chapter on Richard Wright's *Native Son* takes issue with traditional humanistic readings of its protagonist by analyzing the disturbing relationship between terrorism and lynching as a crime and punishment that resists formal incorporation into the law By highlighting the contentious rhetoric that infuses the canonical texts of literary naturalism Fighting Words opens up a wide ranging and interdisciplinary interrogation of racial sexual and environmental polemics in American culture

**The Patriarch in American Frontier Literature**

Warren Motley, 1980 The Fiction of Frank Norris Don Graham, 1978 The American Novel Through Henry James Clarence Hugh Holman, Janis Richardi, 1979 Frank Norris Revisited Joseph R. McElrath, 1992 The renown Frank Norris attained in his brief lifetime sprang from his compelling and to many Americans startling novels about people whose lives have escaped their control and have become grotesquely warped by the confluent forces of hereditary and environment In the decades after his death in 1902 though this broad appeal fossilized to some degree and Norris's Naturalistic novels entered the domain of the literary historian serving as benchmarks in the genre's evolution Fortunately for this author of

such masterpieces as McTeague 1899 The Octopus 1901 and The Pit 1903 a long overdue critical interest in his writing materialized in the 1970s since which time Norris has been regarded as not only an experimenter in many voices and types of writing but also as a chronicler of a culture in flux In revisiting Frank Norris and appropriately so as America nears another fin de siecle and reflects on its sociocultural identity Joseph R McElrath Jr takes as a starting point Warren French s 1962 volume in this series and provides a complementary portrait of the artist McElrath assesses the spate of relatively recent historical reconstructions of Norris s canon and finds a writer who though at times transcendent in the Naturalistic vein was pragmatic in his choice of subject matter and not always grandly serious It is in part the delight Norris took in parody McElrath argues that makes him still so readable Norris is fittingly remembered as a Literary Naturalist McElrath concedes but only if this school of writing is understood as a continuum of the Humanist tradition not a pseudoscientific aberration McElrath contends that Norris s questioning of Who are we and Where are we going puts him in league with Thomas More Erasmus Rabelais and Shakespeare as well as with Emile Zola whose novelistic trouncing of Victorian cultural values so influenced Norris s writing McElrath concurs foremost with estimations of Norris as a touchstone of the changes in art and thought that made the 1890s such a paradoxical decade Norris kept his finger on America s pulse McElrath observes from his luridly thrilling adventure romance Moran of the Lady Letty 1898 to Blix 1899 his partially autobiographical contribution to the period s love idylls in which good young people triumph over adversities to know happiness to his most widely read novel McTeague a frank post Darwinian portrait of greed sexual arousal brutal violence and psychopathology among the denizens of society s underside When Norris died at the age of 32 his contemporaries mourned the loss of potentially the Great American Novelist In his insightful exploration of this complex writer Joseph McElrath holds a mirror up to the world Norris depicted with such immediacy and the images we see look much like the America of today *The Evolution of the Epic Novel in America* Daniel Harry Bultman,1975 **Masterplots** Frank Northen Magill,1996 **American Book Publishing Record** ,1985 **The California Handbook** Ted Trzyna,Julie Didion,1998-10 *The National Union Catalogs*, 1963- ,1964 *American Book Publishing Record Cumulative, 1950-1977* R.R.
