*Time Keepers* S Nambiath,2024-01-24 Whatever had destroyed the dinosaurs was approaching Earth again 20 extraordinary people find that they have 4 years to prevent a catastrophe but they know that the administration will not believe them from previous experience When their 4 year older timeline connects with them in a bid to prevent the annihilation of Earth in their timeline they are elated However when the older timeline stops responding after a while they assume that it has succumbed Their stumbling journey to prevent the catastrophe takes them to Africa and then the Pacific Islands However they are up against a technology that was far more advanced even 66 million years ago In desperation they reach out eight generations into their own past risking their present to find a solution Do they succeed or does humanity go extinct the way the dinosaurs did
