Penal Systems Michael Cavadino, James Dignan, 2005-10-26 Cavadino and Dignan's *Penal Systems A Comparative Approach* looks across national boundaries to see how penal systems differ and why. It is hands down the most comprehensive and up to date book on the subject and should become a staple textbook for use in law and social science courses on comparative penal policy and practice Michael H Tonry University of Minnesota This book is an important addition to the literature on punishment. It is a highly readable and very well researched overview of some of the major differences in punitiveness between neo liberal corporatist and social democratic countries. This is a major contribution to comparative penology by two of the leading authors in this field Alison Liebling Director of the Prisons Research Centre UK A major and seminal work David Downes Professor Emeritus at the London School of Economics *Penal Systems A Comparative Approach* is a comprehensive and original introduction to the comparative study of punishment. Analysing twelve countries Cavadino and Dignan offer an integrated and theoretically rigorous approach to comparative penology. They draw upon material provided by a team of eminent penologists to produce an important and highly readable contribution to scholarship in this area. Early chapters introduce the reader to comparative penology set out the theoretical framework and consider whether there is currently a global penal crisis. Each country is then discussed in turn. Chapters on comparative youth justice and the privatization of prisons follow. Comparisons between countries are drawn within each chapter giving the reader a synoptic and truly comparative vision of penalty in different jurisdictions

Information Technology and the Criminal Justice System April Pattavina, 2005 How has information technology changed the way we monitor criminal behavior? How has it changed the way we examine patterns of criminal behavior? How have criminal justice organizations adapted to using information technology? What is the future of information in criminal justice? There have been many technical, analytical, legal and organizational issues related to advances in computer and information technology over the past several decades. Given the substantial investments that federal, state and local criminal justice agencies are making in information technology, they now consider it an integral component of understanding how our criminal justice system works. *Information Technology and the Criminal Justice System* suggests that information technology in criminal justice will continue to challenge us to think about how we turn information into knowledge, who can use that knowledge and for what purposes. In this text editor April Pattavina synthesizes the growing body of research in information technology and criminal justice. Contributors examine what has been learned from past experiences, what the current state of IT is in various components of the criminal justice system and what challenges lie ahead.

Christopher David Skinns,2022-07-28 This book interrogates Conservative government penal policy for adult and young adult offenders in England and Wales between 2015 and 2021 Government penal policy is shown to have been often ineffective and costly and to have revived efforts to push the system towards a disastrous combination of austerity outsourcing and punishment that has exacerbated the penal crisis This investigation has meant touching on topical debates dealing with the impact of resource scarcity on offenders experiences of the penal system the impact of an increasing emphasis on punishment on offenders sense of justice and fairness the balance struck between infection control and offender welfare

during the government handling of the SARS CoV 2 pandemic and why successive Conservative governments have intransigently pursued a penal policy that has proved crisis exacerbating The overall conclusion reached is that penal policy is too important to be left to governments alone and needs to be recalibrated by a one off inquiry complemented by an on going advisory body capable of requiring governments to explain or change The book is distinctive in that it provides a critical review of penal policy change whilst combining this with insights derived from the sociological analysis of penal trends
