, 1884 **The Builder** , 1877 **Mermaid Construction** Tasaku Tsunoda, 2020-08-10 This volume provides detailed studies of the crosslinguistically unusual mermaid construction in seventeen languages of Asia including Modern Standard Japanese and one language of Africa This construction appears to be absent in languages of Europe Oceania and the Americas The name mermaid construction alludes to its paradoxical make up where the structure closely resembling a verb predicate clause ends with what may look like a noun predicate clause Superficially it looks biclausal however syntactically it is monoclausal It has a compound predicate which contains an independent noun a clitic or an affix derived from a noun or a nominalizer Its compound predicate has a modal evidential aspectual temporal stylistic or discourse related meaning The paradox is resolved from a diachronic perspective insofar as a biclausal structure is reanalyzed as a monoclausal one This volume shows how a noun may be reanalyzed to become a constituent of a predicate It constitutes an important contribution to research on grammaticalization and in particular the grammaticalization of nouns and more generally to the typology of syntactic reanalysis *Building Hoover Dam* Andrew J.
