**Cybersecurity Program Development for Business**

Chris Moschovitis, 2018-04-06 This is the book executives have been waiting for. It is clear. With deep expertise but in nontechnical language it describes what cybersecurity risks are and the decisions executives need to make to address them. It is crisp. Quick and to the point it doesn't waste words and won't waste your time. It is candid. There is no sure cybersecurity defense and Chris Moschovitis doesn't pretend there is instead he tells you how to understand your company's risk and make smart business decisions about what you can mitigate and what you cannot. It is also in all likelihood the only book ever written or ever to be written about cybersecurity defense that is fun to read.
