Fairy Tale Marina Warner, 2018-02-13 From wicked queens beautiful princesses elves monsters and goblins to giants glass slippers poisoned apples magic keys and mirrors the characters and images of fairy tales have cast a spell over readers and audiences both adults and children for centuries These fantastic stories have travelled across cultural borders and been passed on from generation to generation ever changing renewed with each re telling Few forms of literature have greater power to enchant us and rekindle our imagination than a fairy tale But what is a fairy tale Where do they come from and what do they mean What do they try and communicate to us about morality sexuality and society The range of fairy tales stretches across great distances and time their history is entangled with folklore and myth and their inspiration draws on ideas about nature and the supernatural imagination and fantasy psychoanalysis and feminism In this *Very Short Introduction* Marina Warner digs into a rich hoard of fairy tales in all their brilliant and fantastical variations in order to define a genre and evaluate a literary form that keeps shifting through time and history Drawing on a glittering
