## **Families and Adoption**

Harriet Gross, Marvin B. Sussman, 2021-12-12 Do parents with adoptive children see themselves as similar to or different from nonadoptive parents? Is the stigma attached to adoption lessening? Does open communication about adoption contribute to the family's well-being? How successful are adoptive adults at putting their adolescent turmoil behind them? These and many other important and complex questions are addressed in **Families and Adoption**, an informative guidebook that shows you how adoption is both a condition and a lifelong process. **Families and Adoption** discusses legislation that can serve the needs of various members of the adoptive experience to deepen your understanding of the key legal issues associated with consent and openness. It also provides you with detailed coverage of changes in adoption law, open adoption research results, transracial and transethnic adoption, and the consequences of placing versus parenting for unmarried teenage women who give birth. Graduate students, social workers, adoption professionals, members of adoptive families, and couples wishing to adopt will find there isn't a rock that **Families and Adoption** leaves unturned. It presents you with vital information on the following topics: the developmental stages of reunion between an adoptive child and birth parent; notions of adoption, parenthood, and kinship and how these notions are challenged after a reunion has taken place; the institution of adoption as it has existed for decades in American society; international adoption respecting the bonds children have and helping them develop critical attachment skills; those who accept open adoption and those who embrace it; flexible parenting styles and their positive effect on developmentally vulnerable adoptees. A skillful blend of personal adoption experiences and research studies, **Families and Adoption** explores the special issues adoption presents and how all parties involved can work together to improve placement decisions, ensure that a woman is confident in her decision to relinquish her child, and help families select the most appropriate adoption arrangement. The book's main strength is that it doesn't just look at the initial

considerations of adoption it prepares you for the issues that will arise along the way *Special Needs Adoptions* Ruth G. Ruggiero,2017-09-08 Between 1990 and 2006 more than 76 000 children born in Eastern Europe were adopted into American families Almost two thirds of these children came from Russia And in contrast to children adopted from Korea China Central America and South America most of the Russian children were not infants but between one and four years old This volume addresses adoption policies and practices as they pertain to adopted children from Eastern Europe children who have histories of pre adoption adversity Drawing on her decade long experience as an adoptive parent of siblings born in Russia and her expertise as an applied sociologist Josephine Ruggiero examines the central issues involved in international adoptions focusing on older children as well as siblings and suggesting needed changes in policy and practice Regardless of whether children are adopted

domestically or internationally age is a significant factor in their ability to adjust to and function well in their new families Only about three in ten Russian adoptees joined their new families as infants Pre adoption experiences are also significant factors in a child s ability to adjust and function well in a new family Countries differ in risk factors that may figure into the likelihood of adoptees adapting to life in a new family Fetal Alcohol Syndrome serious medical conditions emotional problems

behavioral problems attachment issues learning disabilities and exposure to family violence must be considered as potential risk factors in adoptions Pre adoption adversity is less likely when children come from birth families that are economically poor but have bonded with them At a time when adoption has finally come out of the closet and the definition of the family is changing dramatically Eastern European Adoption takes a much needed look at current adoption policies and practices and how well they do or do not work Ruggiero draws on the literature on older child and sibling adoption and data from a questionnaire survey she designed and conducted with 121 adoptive parents Ruggiero's examples from real adoptive families give a human face to the issues needs and strategies she discusses
