

STEPS TO PROTECTING WORKERS FROM FORKLIFT HAZARDS

Only **trained and licensed** personnel can operate forklifts.

Keep loads secure to **prevent falls**. Make sure the area is clear, so no personnel are harmed.

Cautiously approach ramps, turns, and aisles while driving the forklift.

On ramps, **tilt load back pointing up hill** and **drive reverse while descending**.

Immediately report damages or issues to your supervisor while on the job.

If forklift is being used to **elevate a worker**, make sure worker **uses restraints** and is **elevated using a platform or cage**.

Do not overload past forklift's capacity. Keep load balanced and slightly raised so it clears the ground while transporting.

Use seat belts, assigned seats and **no joy riding** while operating. When work is complete, **engage brakes, lower forks and turn off controls**.

Osha Manual On Forklift Safety

IM Harris
