Conceiving the role of the police supervisor as that of controller, trainer and shaper of human resources, the study examines the various dimensions of the supervisor's responsibilities and provides pragmatic guidelines for their fulfillment. A systems oriented approach to modern organization theory is presented which views the police organization as highly dependent on its environment. Includes discussions of organizational communications, the supervisor's vehicle for exerting control and an examination of supervisory leadership in terms of mutual support, interaction, facilitation, goal emphasis, work facilitation and a study of the supervisor's role requirement for training personnel. These characterize the supervisor as a team leader with a basic responsibility for developing the human resources of the organization.
