*Is Canada Postcolonial?* Laura Moss, 2003-05-26 How can postcolonialism be applied to Canadian literature In all that has been written about postcolonialism surprisingly little has specifically addressed the position of Canada Canadian literature or Canadian culture Postcolonialism is a theory that has gained credence throughout the world it is be productive to ask if and how we as Canadians participate in postcolonial debates It is also vital to examine the ways in which Canada and Canadian culture fit into global discussions as our culture reflects how we interact with our neighbours allies and adversaries This collection wrestles with the problems of situating

Canadian literature in the ongoing debates about culture identity and globalization and of applying the slippery term of postcolonialism to Canadian literature The topics range in focus from discussions of specific literary works to general theoretical contemplations The twenty three articles in this collection grapple with the recurrent issues of postcolonialism including hybridity collaboration marginality power resistance and historical revisionism from the vantage point of those working within Canada as writers and critics While some seek to confirm the legitimacy of including Canadian literature in the discussions of postcolonialism others challenge this very notion Reading Practices, Postcolonial Literature, and Cultural Mediation in the Classroom Ingrid Johnston, Jyoti Mangat, 2012-03-24 In this book Johnston and Mangat consider ways in which particular postcolonial and multicultural literary texts are able to provide a space of cultural mediation for readers from various backgrounds The studies described in the five chapters of the book explore the spaces of convergence of identity culture and literature with students and teachers in high school contexts and undergraduates in university settings In each study readers are responding to texts that are culturally distant from their own literary and experiential histories An objective of each study was to consider the nature of the cultural locations of the reader and the text and the interstitial spaces between these locations The book interrogates readers attempts to negotiate cultural difference in literary contexts and questions how this negotiation requires reading practices traditionally ignored in North American classrooms The book will offer educators at the secondary and post secondary levels rich material to draw upon for a rethinking of the school curriculum and will be of interest to scholars of postcolonial and literary studies **Good Sex** Raymond A.
