Aesthetics as Phenomenology Günter Figal, 2015-02-02 Connecting aesthetic experience with our experience of nature or with other cultural artifacts Aesthetics as

Phenomenology focuses on what art means for cognition recognition and affect how art changes our everyday disposition or behavior. Ginter Figal engages in a penetrating analysis of the moment at which in our contemplation of a work of art reaction and thought confront each other. For those trained in the visual arts and for more casual viewers Figal unmasks art as a decentering experience that opens further possibilities for understanding our lives and our world. Stone, 1899
