**The Fiction Gateway** Suzanne Eberlé, Noelle Williamson, 2009 In this guide two experienced school librarians provide a selection of books for librarians, teachers and parents. **Reconfiguring the Natures of Childhood** Afrika Taylor, 2013 In this fascinating new book Afrika Taylor encourages an exciting paradigmatic shift in the ways in which childhood and nature are conceived and pedagogically deployed and invites readers to critically reassess the naturalist childhood discourses that are rife within popular culture and early years education. Through adopting a common worlds framework Reconfiguring the Natures of Childhood generates a number of complex and inclusive ways of seeing and representing the early years. It recasts childhood as messy and implicated rather than pure and innocent situated and differentiated rather than decontextualized and universal entangled within real world relations rather than protected in a separate space. Throughout the book the author follows an intelligent and innovative line of thought which challenges many pre-existing ideas about childhood. Drawing upon cross disciplinary perspectives and with international relevance this book makes an important contribution to the field of childhood studies and early childhood education and will be a valuable resource for scholars, postgraduate students and higher education teachers.

*Tragedy of Riches* Stephen Barber, 2011-10-07 Offering a critical analysis of the UK political system. *Tragedy of Riches* argues that politicians over the past twenty years have changed our economic destiny for the worse.

*Pelican* Barbara Allen, 2019-07-15 With its distinctive comical walk, large bill and association with the conservation movement the pelican has attained iconic status. But as Barbara Allen reveals this graceful skimmer of ocean waves has a checkered history. Originally classed as unclean in the King James Bible the legend of the compassionate pelican was later appropriated by Christianity to symbolize Christ's sacrifice. This majestic bird, gifted to British royalty in 1664, has been celebrated in art and literature from Shakespeare's *King Lear* to the writing of Edward Lear and is the holder of three Guinness World Records. The pelican's anatomy has been copied for paper plane construction, aircraft design and in 3D imaging and its resilience is as remarkable as its make up. The pelican has rallied against threats of extinction, habitat destruction and environmental disasters such as the Deepwater Horizon oil spill. A must read book for all bird enthusiasts. Barbara Allen's *Pelican* weaves together wildlife trivia, historical tales and the latest research to provide an engaging many feathered account of this emblematic bird.
