**Mending the World** Joseph Melnick, 2016-12-05 Mending the World provides a blueprint for making a difference in the intractable social issues that exist today. It presents the compelling drama of thirteen stories of people on the firing lines in countries in Africa Europe Scandinavia as well as Brazil Cambodia North of Ireland and the USA. The cases involve diverse real world issues such as AIDS reduction poverty political conflict natural disasters and dilemmas in supporting the aged. The stories are framed by the editors with theory and historical data and offer the hope of effective change using Gestalt principles and methods. In these complex issues you need unique skills to bring people together to work toward a common solution and to empower yourselves to influence people with positional power. Mending the World shows how use of these skills leads to high impact outcomes.

**Here Now Next** Taylor Stoehr, 2013-05-13 Paul Goodman left his mark in a number of fields he went from being known as a social critic and philosopher of the New Left to poet and literary critic to author of influential works on education Compulsory Mis education and community planning Communitas. Perhaps his most significant achievement was in his contribution to the founding and theoretical portion of the classic text Gestalt Therapy with F S Perls and R E Hefferline 1951 still regarded as the cornerstone of Gestalt practice. Taylor Stoehr's *Here Now Next* is the first scholarly account of the origins of Gestalt therapy told from the point of view of its chief theoretician by a man who knew him well. Stoehr describes both Goodman's role in establishing the principal ideas of the Gestalt movement and the ways in which his practice as a therapist changed him ultimately leading to a new vocation as the socio therapist of the body politic. He places Goodman in the midst of his world showing how his personal and public life including his political activities in the 1960s were transformed by Gestalt ideas and he presents revealing sketches of other major figures from those days Fritz Perls Wilhelm Reich A S Neill and others.

This reference book includes alphabetically arranged entries for more than 75 Jewish American novelists whose major works were largely written after World War II. Included are entries for both well known and relatively obscure novelists many of whom are just becoming established as significant literary figures. While the volume profiles major canonical figures such as Saul Bellow Norman Mailer and Bernard Malamud it also aims to be more inclusive than other works on contemporary Jewish American writers. Thus there are entries for gay and lesbian novelists such as Lev Raphael and Judith Katz whose works challenge the more orthodox definition of Jewish religious and cultural traditions. Art Spiegelman whose controversial *IMaus* established a new genre by combining elements of the comic book and the conventional novel and newcomers such as Steve Stern and Max Apple who have become more prominent within the last decade. Each entry includes a brief biography a discussion of major works and themes an overview of the novelist's critical reception and a bibliography of primary and secondary sources. A thoughtful introduction summarizes Jewish American fiction after World War II and a
