*Strategic Intelligence for the Future 1* Henri Dou,Alain Juillet,Philippe Clerc,2019-04-30 Information in all its forms is at the heart of the economic intelligence process It is also a powerful vector of innovation and more than ever a balance between economic and societal forces Strategic Intelligence for the Future 1 analyzes the need for the French economic intelligence to mutate in order to develop the economy strengthen social cohesion and protect vital interests This mutation requires a change of attitudes and a new way of thinking widely open to global change and new technologies The focus of the French economic intelligence on conventional objectives such as business and the economy does not allow for the integration of its multiple possible fields and thus its global nature The strategy foresight and temporal dynamics necessary to the understanding of the world and the new balance of power and control of complex situations have thus increased the time needed to put this in place Both theoretical and practical this book provides a basis from which to develop enhanced economic intelligence leading to the implementation of global security
