Strategic Investment Decisions Theory Practice And Process:

Strategic Investment Decisions Richard Butler,1993-01-01 Strategic Investment Decision Making is based upon a study of strategic investment decisions in a wide range of UK and international companies The authors examine these decisions from the perspective of organizational decision making theory They find that investments are not made only by the application of formal quantitative procedures but also involve the more qualitative processes of judgement negotiation and inspiration The concept of decision effectiveness is examined and two primary factors identified These are the objectives attainment factor and the learning factor A number of case studies are presented to illustrate decisions which achieve different combinations of these effective factors For example one case turned out to be ineffective in terms of objectives attainment but highly effective in terms of organizational learning that took place This learning led to some significant structural and procedural changes in the organization Through a combination of case studies and statistical analysis the authors develop a general model of decision effectiveness *Strategic Decisions* Vassilis Papadakis,Patrick
