Strategic Triangle And Regional Conflicts Lessons From The Indochina Wars:

The Strategic Triangle and Regional Conflicts Min Chen, 1992-01 Focusing on the period during the 1964-1980 Indochina wars, this book examines the big power triangular relationship involving China, the Soviet Union, and the United States. The author challenges the myth that during the Nixon years this strategic triangle was efficient in its efforts to halt the Vietnam War and argues that on the contrary, the triangle was restrictive or at best had limited capability to manipulate the situation.

The Strategic Triangle and Regional Conflicts Min Ch'en, 1990 *The Changing Dynamics of the Relations among China, Taiwan, and the United States* Cal Clark, Janet Clark, 2011-01-18 Ever since Chiang Kai-shek and his Kuomintang evacuated to Taiwan at the end of the Chinese Civil War in 1949, China and Taiwan have been divided by a fundamental and irreconcilable sovereignty dispute over Taiwan's international status. In addition, the United States has played a central role in the rivalry between Beijing and Taipei. Despite the immutable nature of this sovereignty dispute between China and Taiwan, the triangular relations among Beijing, Taipei, and Washington have changed quite considerably over time. Over the last three decades, for example, relations in the Taiwan Strait were fairly tranquil during the 1980s and early 1990s, became much tenser from 1995 to 2008, and then reverted to amicable relations among China, Taiwan, and the United States after the election of a new Taiwanese President in 2008. This book seeks to understand and analyze the relations among China, Taiwan, and the United States in the early twenty-first century. In particular, it explores what causes change in the relations among Beijing, Taipei, and Washington and how stable the new era is likely to be. Consequently, special emphasis is placed on the factors promoting change or stability in the interactions among these three countries and upon the policy choices facing their governments. The major topics include the dynamics of the strategic triangle that defines cross-strait relations (Chapters 2 to 4 and 8), the domestic politics and policies of Taiwan and China (Chapters 3 to 8), and the growing economic integration across the Taiwan Strait (Chapters 9 to 12). Overall, the future of this trilateral relationship appears to be fairly open-ended. Despite the current rapprochement, the ultimate goals of China and Taiwan remain incompatible; cross-strait relations remain a viciously polarizing issue in Taiwan's domestic politics; and there is profound scholarly disagreement over the broader implications of the growing economic ties across the Strait.

American-Vietnamese Relations in the Wake of War Cécile Menétrey-Monchau, 2017-02-10 When the Vietnam War ended with the North Vietnamese capture of Saigon on April 30, 1975, 27 months after a cease-fire had been signed in Paris, the differences between the United States and Vietnam were far from being resolved. Mutual bitterness regarding the war remained. Newly unified Vietnam wanted normalization of relations and the subsequent economic reconstruction aid promised in the Paris Peace Accords. Understandably wary of such diplomatic relations, the United States requested information regarding soldiers listed as missing in action and assistance with the repatriation of military remains. A series of misconceptions and misunderstandings, as well as changes from a regional to a global U.S. foreign policy, left both countries bereft of an easy solution. This book describes the negotiations

during the late Ford and early Carter administrations 1975-1979 and discusses the repercussions the diplomatic stalemate had on the domestic and international politics of the United States and Vietnam emphasizing the conflicting priorities and political goals of both countries at home and abroad This previously neglected period in United States-Vietnam relations deals with issues such as Hanoi's constant exultation over the victory American denial of responsibility the division between the president's public declarations and congressional policies and both sides' use of the MIA issue Based primarily on recently declassified documents and former U.S. official Douglas Pike's uncensored collection the work also makes use of media press sources from America Vietnam Britain France and China Interviews with Vietnamese immigrants and former U.S. politicians provide insight unavailable in written histories Appendices contain the February 1973 correspondence between President Nixon and the Prime Minister of the Democratic Republic of Vietnam six diplomatic notes from 1976 and a January 30, 1979 letter from President Carter to Chinese Vice Premier Deng Xiaoping

Hanoi's Road to the Vietnam War, 1954-1965 Pierre Asselin, 2015-08-18 Using new and largely inaccessible Vietnamese sources as well as French British Canadian and American archives Pierre Asselin sheds valuable light on Hanoi's path to war Step by step the narrative makes Hanoi's revolutionary strategy from the end of the French Indochina War to the start of the Anti American Resistance Struggle for Reunification and National Salvation the Vietnam War transparent The book reveals how North Vietnamese leaders moved from a cautious policy emphasizing nonviolent political and diplomatic struggle to a far riskier pursuit of military victory

Explaining China's Alliances Michael Robert Chambers, 2000 *Current Bibliographical Information* Dag Hammarskjöld Library, 1992 Dynamics Vs. Tradition in Chinese Foreign Policy Motivation Yin Qian, 1999 This book presents original evidence of a previously undisclosed dark side to China's Hong Kong policy after 1982 It documents a covert program of immigration from the mainland to Hong Kong which was designed to put in place a classic fifth column of Communist loyalists to be used if all other institution based arrangements for the power transfer of the British colony to Chinese rule failed This finding is revealing and important in its own right as a contribution to study of the Hong Kong transition But the book focuses more on the broader significance of the motivation of such a fifth column policy for both the study of Chinese foreign policy and international relations theory Studies of international affairs regularly impute motives to states or their leaders Yet when it comes to analysis of the imputed motives most scholars see that as nearly impossible given the difficulty of penetrating the minds of the individual leaders concerned However a small number of scholars have taken up the challenge They believe that foreign policy motivation can be studied despite its apparent complexity and elusiveness They see the study of motivation of a given foreign policy as the only way of grasping its essence and therefore of ascertaining clues about its future development This book argues that motivation study advances our understanding of Chinese foreign policy Drawing on an investigation of existing theoretical studies of motivation it identifies and synthesises three approaches to the study of motivation that seem particularly relevant to the Chinese case perception personality and structural situational constraining factors It also analyses the historical political culture ideological and structural sources of Chinese policymaking to illustrate how these three elements can elucidate Chinese foreign policy motivation Its conclusion is then tested against the case of China's fifth column policy in Hong Kong The findings from the Hong Kong case study reflect two parallel but contradictory lines of motivation in the reform era of Deng Xiaoping a dynamic adjusting and learning process on the one hand and a strenuous effort to retain its traditional practice on the other The book concludes that despite increasing pressures for adaptation from constant and tremendous changes in global and national settings Chinese foreign policy motivation could not in the final analysis overcome the constraints imposed by its underlying doctrines and practices which

had been so firmly embedded in the minds of the Communist leaders that it became a traditional mode of responding to the unknown and uncertain culture of Chinese foreign policy *The Australian Journal of Chinese Affairs* ,1992 *Russia, China and Eurasia* Alekseĭ Dmitrievich Voskresenskiĭ,1998 A single volume reference for students and researchers citing what Voskerssenski has found to be the most important or most interesting sources while writing his several books on the subjects Covers unpublished sources in the main archival and manuscript collections documentary sources and memoirs in western languages Russian and Chinese methodological and theoretical issues the theory general matters and practice of international relations specialized issues and papers book chapters articles and unpublished manuscripts Also lists periodicals and academic and professional journals for Russia Asia and the west Not annotated or indexed Annotation copyrighted by Book News Inc Portland OR *Choice* ,1993 Current Politics and Economics of Russia, Eastern and Central Europe ,1998 □□□□□□□□□□ ,1993
