Strategy And History:

Strategy and History Colin S. Gray, 2007-01-24 This book comprises some of the most important contributions to the strategic debate over the past thirty years by a leading theorist and practitioner Strategy Lawrence Freedman, 2013-10-31 One of the world's leading authorities on war and international politics synthesizes the vast history of strategy's evolution in this consistently engaging and surprising account of how it came to pervade every aspect of life

History and Strategy Marc Trachtenberg, 2020-09-01 This work is a powerful demonstration of how historical analysis can be brought to bear on the study of strategic issues and conversely how strategic thinking can help drive historical research Based largely on newly released American archives *History and Strategy* focuses on the twenty years following World War II By bridging the sizable gap between the intellectual world of historians and that of strategists and political scientists the essays here present a fresh and unified view of how to explore international politics in the nuclear era The book begins with an overview of strategic thought in America from 1952 through 1966 and ends with a discussion of making sense of the nuclear age Trachtenberg reevaluates the immediate causes of World War I studies the impact of the shifting nuclear balance on American strategy in the early 1950s examines the relationship between the nuclearization of NATO and U S West European relations and looks at the Berlin and the Cuban crises He shows throughout that there are startling discoveries to be made about events that seem to have been thoroughly investigated

Strategy: A History (getAbstract Summary), 2019 Review the history of strategy the art of creating power in this audio only summary of the book by Sir Lawrence Freedman a leading authority on war and strategic analysis Freedman discusses the universality of strategic thinking and proceeds to lead readers on an expedition through the history of the Western world tracing the development of strategic thought in warfare politics and 476536564 One of his major themes is that even the best strategy can do no more than attempt to subdue a complex and recalcitrant world This audio only summary from getAbstract distills the most important lessons from his book As Freedman writes *Strategy* is about power and how to create it but it is also about the ability to understand the limitations of power This audiobook summary was created by getAbstract the world's largest provider of 476536564 book summaries We are pleased to offer this training in our library

The Decisive Wars of History Sir Basil Henry Liddell Hart, 1929 Geopolitics, Geography and Strategic History Geoffrey Sloan, 2017-02-17 This work explains the course of international politics from the rebirth of the German Empire to the rise of China with particular though not exclusive reference to spatial relationships *China's Maritime Power And Strategy: History, National Security And Geopolitics* Hailong Ju, 2015-04-08 This book conducts a comprehensive study on China's maritime strategy It discusses the lessons of maritime power history that must be learnt by Chinese today the relations between China's maritime strategy and domestic developing problems of China the status and influence of maritime strategy from China's overall development strategy perspective and the geopolitical targets of Chinese navy in 2050 China's maritime strategy is one of the most

important academic and realistic subjects in the present and future This book is the first book to discuss China's maritime strategy comprehensively in and outside China It will give readers a better sense of why China has to develop its sea power why it lays so much emphasis on Taiwan and the South China sea why the country can make friends with India but not Japan and why China's maritime strategy will never challenge America but has to face the pressure from America's maritime hegemony and so on

War and Geopolitics in Interwar Manchuria Chi Man Kwong, 2017-03-06 In War and Geopolitics in Interwar Manchuria Kwong Chi Man revisits the civil wars in China 1925-1928 from the perspective of the often overlooked warlords who fought against the joint forces of the Nationalist and Communist parties In particular this work focuses on Zhang Zuolin the leader of the Fengian Clique who was sometimes seen as the representative of the Japanese interest in Manchuria Using primary and secondary sources from China Japan the United Kingdom and the United States this work tries to revisit the wars during the period from international political military and economic financial perspectives It sheds new light on Zhang Zuolin's decision to fight against the Nationalists and the Communists and offers an alternative explanation to the Nationalists' temporary victory by revealing the central importance of geopolitics in the civil wars in China during the interwar period

Strategy and Defence Planning Colin S. Gray, 2014-06-26 Strategy and Defence Planning Meeting the Challenge of Uncertainty explores and examines why and how security communities prepare purposefully for their future defence The author explains that defence planning is the product of interplay among political process historical experience and the logic of strategy The theory of strategy best reveals both the nature and the working of defence planning Political ends strategic ways and military means all fed by reigning if not always recognized assumptions organize the subject well

with a template that can serve any time place and circumstance The book is designed to help understanding of what can appear to be a forbiddingly complex as well as technical subject A good part of the problem for officials charged with defence planning duties is expressed in the second part of the book s title The real difficulty which rarely is admitted by those tasked with defence planning duty is that defence planning can only be guesswork But because defence preparation is always expensive not untypically is politically unpopular yet obviously can be supremely important claims to knowledge about the truly unknowable persist In truth we cannot do defence planning competently because our ignorance of the future precludes understanding of what our society will be shown by future events to need The challenge faced by the author was to identify ways in which our problems with the inability to know the future in any detail in advance the laws of nature in other words may best be met and mitigated Professor Gray argues that our understanding of human nature of politics and of strategic history does allow us to make prudent choices in defence planning that hopefully will prove good enough

Military Strategy Jeremy Black,2020-04-07 A global account of military strategy which examines the practices rather than the theories of the most significant military figures of the past 400 years Strategy has existed as long as there has been organised conflict In this new account Jeremy Black explores the ever changing relationship between purpose force implementation and effectiveness in military strategy and its dramatic impact on the development of the global power system Taking a total view of strategy Black looks at leading powers notably the United States China Britain and Russia in the wider context of their competition and their domestic and international strengths Ranging from France s Ancien Regime and Britain s empire building to present day conflicts in the Middle East Black devotes particular attention to the strategic practice and decisions of the Kangxi Emperor Clausewitz Napoleon and Hitler

The Cambridge History of Strategy: Volume 2, From the Napoleonic Wars to the Present Isabelle Duyvesteyn,Beatrice Heuser,2024-11-30 Volume II of The

Cambridge History of Strategy focuses on the practice of strategy from 1800 to the present day. A team of leading scholars examine how leaders of states and empires and non state groups such as guerrilla forces, rebel groups and terrorists have attempted to practice strategy in the modern period. With a focus in the actual doing of strategy, the volume aims to understand the real world experiences when ideas about conflict are carried out against a responding and pro active opponent. The case studies and the material presented in the volume form an invitation to rethink dominant perspectives in the field of strategic studies. As the case studies demonstrate, strategy is most often not a stylized, pre meditated and wilful phenomenon. Rather, it is a product of circumstance and opportunity, both structural and agential, leading to a view of strategy as an ad hoc if not chaotic enterprise.

Current History, 1923 *Military Strategy History* Johnson Tianka, 2022-02-25

Military strategy is a set of ideas implemented by military organizations to pursue desired strategic goals. Derived from the Greek word *strategos*, the term *strategy* when it appeared in use during the 18th century was seen in its narrow sense as the art of the general or the art of arrangement of troops. Military strategy deals with the planning and conduct of campaigns, the movement and disposition of forces and the deception of the enemy. Strategy differs from tactics in that strategy refers to the employment of all of a nation's military capabilities through high level and long term planning, development and procurement to guarantee security or victory. Tactics is the military science employed to secure objectives defined as part of the military strategy, especially the methods whereby men, equipment, aircraft, ships and weapons are employed and directed against an enemy. Strategy focuses on how to win a war through a series of battles and campaigns; tactics focus on how to use the available means to win the battlefield.

After Clausewitz Antulio J. Echevarria (II), Antulio Joseph Echevarria, 2000. But Echevarria disputes this traditional view and convincingly shows that these theorists, Boguslawski, Goltz, Schlieffen, Hoening and their American and European counterparts were not the architects of outmoded theories. In fact, they duly appreciated the implications of the vast advances in modern weaponry as well as in transportation and communications and set about finding solutions that would restore offensive maneuver to the battlefield.
