

STRATEGY AND POWER IN RUSSIA 1600 1914

WILLIAM C. FULLER, JR.

Strategy And Power In Russia 1600

Dennis E. Showalter

Strategy And Power In Russia 1600:

Strategy and Power in Russia 1600-1914 William C. Fuller, 1998-10-01 A pioneering effort to trace the evolution of military power and military strategy of tsarist Russia during the rule of the Romanov dynasty Richard Pipes Baird Professor of History Harvard University The Modernisation of Russia, 1676-1825 Simon Dixon, 1999-07-29 This is the first book to place Russia's long eighteenth century squarely in its European context The conceptual framework is set out in an opening critique of modernisation which while rejecting its linear implications maintains its focus on the relationship between government economy and society Following a chronological introduction a series of thematic chapters covering topics such as finance and taxation society government and politics culture ideology and economy emphasise the ways in which Russia's international ambitions as an emerging great power provoked administrative and fiscal reforms with wide ranging and often unanticipated social consequences This thematic analysis allows Simon Dixon to demonstrate that the more the tsars tried to modernise their state the more backward their empire became A chronology and critical bibliography are also provided to allow students to discover more about this colourful period of Russian history Eurasia's Ascent in Energy and Geopolitics Robert Bedeski, Niklas Swanström, 2012-08-06 The Sino Russian relationship has experienced several permutations in recent decades as both states have undergone radical domestic changes including the end of Soviet communism and the abandonment of Maoism This volume brings together scholars to address the current status of Sino Russian relations in the political military energy and trade sectors In this comprehensive new volume authors offer a detailed account on the both the historical context and current status of relations between Russia and China and the geo political realignments in Eurasia This analysis of the evolving relationship addresses global strategy energy politics national security human security and Central Asian links Individual chapters examine key issues such as China's economic ascendancy military relations the geostrategic position of Mongolia Japan's views and historical background With authors representing a broad range of current active experts and researchers working in Europe the US Central Asia China and Japan this book offers a long term and in depth analysis of the relations and potential developments in both bilateral and international relations This work will be of great interest to scholars of international relations Asian security and the Eurasian region Strategic Review, 1992 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States *Russian Foreign Policy in the Twenty-First Century and the Shadow of the Past* Robert Legvold, 2007-03-27 Because the turbulent trajectory of Russia's foreign policy since the collapse of the Soviet Union echoes previous moments of social and political transformation history offers a special vantage point from which to judge the current course of events In this book a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history The authors explain the impact of empire and its loss the interweaving of domestic and foreign impulses long standing approaches to national security and the effect of globalization over time Contributors focus on

the underlying patterns that have marked Russian foreign policy and that persist today These patterns are driven by the country's political makeup geographical circumstances economic strivings unsettled position in the larger international setting and above all its tortured effort to resolve issues of national identity The argument here is not that the Russia of Putin and his successors must remain trapped by these historical patterns but that history allows for an assessment of how much or how little has changed in Russia's approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve A truly unique collection this volume utilizes history to shed crucial light on Russia's complex occasionally inscrutable relationship with the world In so doing it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined

The Grand Strategies of Great Powers Tudor A. Onea, 2020-08-05 What is grand strategy and what is it good for What are great powers and which states are great powers today What are the grand strategies available to great powers What are the conditions under which a certain strategy is suitable and when should it be rejected What are the factors affecting the success or failure of a given grand strategy The present volume provides answers to these questions by introducing a typology of great power grand strategies as strategies of rising status quo and declining powers as well as through historical illustrations of each type The reader is thus exposed to strategies such as divide and conquer biding your time opportunity strike primacy semi detachment concert and appeasement through the experiences of leaders such as Bismarck Peter the Great Metternich Deng Xiaoping Neville Chamberlain and Stalin This analysis is then brought to bear on present developments in the grand strategies of the United States China and Russia The volume should be of interest to both the academic and foreign policy making communities and in particular to students of international relations diplomacy history and current international affairs

[Russia's Age of Serfdom 1649-1861](#) Elise Kimerling Wirtschafter, 2008-02-11 Offering a broad interpretive history of the Russian Empire from the time of serfdom's codification until its abolition following the Crimean War Wirtschafter considers the institution of serfdom official social categories and Russia's development as a country of peasants ruled by nobles military commanders and civil servants

Strategic Power Carl G. Jacobsen, 1990-02-23 This book highlights the impact and relevance of strategic culture Each section contains essays contrasting United States and Soviet perceptions on specific topics Each section closes with a synthesizing commentary to help readers to get a better sense of differences and similarities

[Naval War College Review](#), 1993

A Social History of the Russian Empire 1650-1825 Janet M. Hartley, 1999 This is a major and wide ranging survey of the social history of Russia from before Peter the Great right through to Napoleon

The Wars of Frederick the Great Dennis E. Showalter, 1996 The campaigns of Frederick the Great were a watershed in the history of Europe They inaugurated a new pattern of total war for limited objectives that was to endure until 1916 Frederick's battles were designed to convince his adversaries of the wisdom of making and keeping peace

Frederick the Great Dennis E. Showalter, 2012 Frederick the Great ruled for almost half a century 1740-86 and throughout his reign military matters were a

prime preoccupation For much of it Prussia was actually at war first during the continent wide War of Austrian Succession 1740-48 and later the Seven Years War 1756-63 in which Prussia and Britain were allied against Austria France Russia Sweden and Saxony By Frederick's death Prussia had doubled in size and was overtaking Austria in the struggle for dominance over the German speaking lands In this classic work Showalter surveys the entire range of these wars chronologically placing the military operations and Frederick's own policies and ambitions in their broader social and political context The result is a formidable analysis of the political and military dynamics of later 18th century Europe which will be necessary reading for all serious students of the period However Showalter's powerful and vigorous account of these campaigns and the great battles that decided them will appeal beyond professional historians to general readers looking for a thrilling story well told This edition has been updated to include a new introduction and an excellent bibliographical essay which surveys the latest works on Frederician Prussia and eighteenth century warfare Publisher's description p 2 of dust jacket

After Tamerlane John Darwin, 2008-02-05 The author of *The End of the British Empire* traces the rise and fall of large scale empires in the centuries after the death of the emperor Tamerlane in 1405 in an account that challenges conventional beliefs about the rise of the western world and contends that European ascendancy may be a transitory event

America's Wars in Asia Philip West, Steven I. Levine, Jackie Hiltz, 1998 Even though the cultural approach concerns itself with the local and the particular rather than with the abstract and universal it is inherently comparative Moreover it also relocates each war in the historical and cultural experiences of Asian countries themselves rather than seeing the war as merely a conflict between the United States and Asian nations

War in European History, 1494-1660 Jeremy Black, 2006 Provides the latest scholarship in military history includes essays written by top scholars in their fields Supplies an indispensable introduction to the field and a guide for further research for students and seasoned researchers alike

Bibliography of the Soviet Union, Its Predecessors and Successors Bradley L. Schaffner, 1995 Provides subject access to works on a broad range of topics on the region's social political and cultural development Most of the titles have been published since 1984 With author index

Shipping, Technology, and Imperialism Gordon Jackson, David Malcolm Williams, 1996 This text derives from papers presented at the Third British Dutch Maritime Conference and examines shipping technology and imperialism during the 19th century

Program of the Annual Meeting - American Historical Association American Historical Association, American Historical Association. Annual Meeting, 1994 Some programs include also the programs of societies meeting concurrently with the association

Weapons & Warfare Salem Press, 2010 This work features 140 chronologically arranged overviews of the history of weaponry and military tactics from ancient times to the present global age Originally published in 2002 *Weapons and Warfare* is designed to meet the needs of students seeking information about weaponry tactics and models of warfare from ancient times to the present worldwide Written with the needs of students and general readers in mind the articles contained in this set present clear discussions of the topics

explaining any terms or references that may be unclear The focus on the technical and strategic development of weapons and tactics more than on a narrative chronological history of events allows students of history political science science and technology alike to gain a broad understanding of the technological and strategic advances made over time and geography The new third volume adds the essential dimension of placing these topics in broad social cultural and ethical contexts Approximately 140 topics arranged chronologically and thematically with volume 1 Ancient and Medieval covering weapons and strategies from ancient times to 1500 volume 2 The Modern Era covering weapons and strategies from approximately 1500 to the present and volume 3 Warfare Cultural and Concepts providing valuable overviews of the way warfare weapons and military history have been expressed socially politically and in the arts Each essay ranges from 1 500 words to 7 000 words The first two volumes open with overviews of major weapons groups for example in volume 1 Clubs Maces and Slings Sieges and Siegecraft in volume 2 Swords Daggers and Bayonets Rockets Missiles and Nuclear Weapons followed by chronologically arranged sections covering major historical periods and regions of the world and their contributions to military weapons technologies and strategies Volume three touches on all sociocultural and political aspects of culture society science ethics and basic behind the battlefield theories strategies and policies The essays in this set are organized into three essay types Weapons overview articles are organized with sections on Nature and Use and Development of each weapons type The geographically arranged warfare articles feature sections on Political Considerations where relevant and on Military Achievement Weapons Uniforms and Armor Military Organization Doctrine Strategy and Tactics Warfare articles also feature a section on the primary sources from which historians base their observations and evaluates the best sources for understanding the warfare of the period Culture concept overviews new approach warfare and weaponry from several different perspectives sociological geographical cultural ritual political ethical religious tactical and strategic *Weapons & Warfare: Modern weapons and warfare (since 1500)* ,2002
