Integrating African American Literature in the Library and Classroom Dorothy Littlejohn Guthrie, 2011-09-14 In this book African American literature is illuminated through a project based curriculum that incorporates national curriculum standards. It is important that the school curricula be representative of the diversity of the American student population. Integrating African American Literature in the Library and Classroom is designed to help teachers and librarians achieve that goal. The book recommends and annotates more than 200 titles that touch on African American life from slavery through the present time, most of them by black authors and many of them winners of the Coretta Scott King Caldecott and or Newbery awards. This guide offers cross-curricular lesson plans for grades K-12. Each chapter identifies areas in which instructional attention is most needed to help students develop a greater appreciation for diversity, perseverance, and ethnicity. Examples and ideas for activities are offered to reinforce related concepts. With this book, teachers and librarians will be better able to motivate and inform helping students discover the richness of African American culture now and through time. Multicultural Literature and Response Lynn Atkinson Smolen, Ruth A. Oswald Ph.D., 2010-12-22 This compelling book emphasizes the critical role of quality multicultural literature and reader response in today's schools and libraries. All students need access to books in which they can see themselves, not just their physical appearance but their culture and language as well. Multicultural Literature and Response: Affirming Diverse Voices was written to help teachers and librarians find and use the best multicultural books in the service of reading comprehension and more. Underscoring the necessity of selecting quality literature that authentically, sensitively, and accurately portrays different groups, the book defines multicultural literature and provides a strong argument for its importance in schools and libraries. Expert contributors guide users to multicultural authors and illustrators who portray U.S. ethnic and cultural groups and they suggest ways to integrate this literature with writing fluency development, storytelling, and audiovisuals. Extensive lists of books and websites that feature multicultural literature, as well as of authors, illustrators, and publishers of multicultural literature, make it easy to include such works in programs across the curriculum.

African-Centered Pedagogy Peter C. Murrell Jr.,2002-02-19 What can teachers administrators families and communities do to create schools that provide rich learning experiences for African American children Based on a critical reinterpretation of several key educational frameworks African Centered Pedagogy is a practical guide to accomplished teaching Murrell suggests integrating the historical cultural political and developmental considerations of the African American experience into a unified system of instruction bringing to light those practices that already exist and linking them to contemporary ideas and innovations that concern effective practice in African American communities This is then applied through a case study analysis of a school seeking to incorporate the unified theory and embrace African centered practice Murrell argues that key educational frameworks although currently ineffective with African American children hold promise if reinterpreted
