

The background of the entire image is a dark, atmospheric photograph of a London street at night. A row of ornate street lamps with glowing white globes stretches from the foreground into the distance. In the background, the iconic clock tower of Big Ben is visible, its face and spire partially obscured by a thick layer of fog or mist. The overall color palette is dominated by deep blues, greys, and blacks, with the white light from the lamps providing a stark contrast.

Reproduction Pamela Caughie, 2013-10-31 This collection of ten original essays is the first to read Virginia Woolf through the prism of our technological present Expanding on the work of feminist and cultural critics of the past two decades this volume offers a sustained reflection on the relationship between Walter Benjamin's analyses of mass culture and technology and Woolf's cultural productions of the 1920s and 1930s It also brings out the extent to which Woolf was beginning to image
