Streetwise Diego Gambetta, Heather Hamill, 2005-06-30 A taxi driver's life is dangerous work Picking up a bad customer can leave the driver in a vulnerable position and erring even once can prove fatal To protect themselves taxi drivers must quickly and accurately assess the trustworthiness of complete strangers In Streetwise Diego Gambetta and Heather Hamill take this predicament as a prototypical example of many trust decisions where people must act on limited information and judge another person's trustworthiness based on signs that may or may not be honest indicators of that person's character or intent Gambetta and Hamill analyze the behavior of cabbies in two cities where driving a taxi is especially perilous New York City where drivers have been the targets of frequent and violent robberies and Belfast Northern Ireland a divided metropolis where drivers have been swept up in the region's sectarian violence Based on in depth ethnographic research Streetwise lets drivers describe in their own words how they seek to determine the threat posed by each potential passenger The drivers decisions about whom to trust are treated in conjunction with the sign management strategies of their prospective passengers both genuine passengers who try to persuade drivers of their trustworthiness and the villains who mimic them As the theory that guides this research suggests drivers look for signs that correlate closely with trustworthiness but are difficult for an impostor to mimic A smile a business suit or a skullcap alone do not reassure drivers as any criminal could easily wear them Only if attached to other signs a middle aged woman a business address or a synagogue are they persuasive Drivers are adept at deciphering deceitful signals but trickery is occasionally undetectable so they must adopt defensive strategies to minimize their exposure to harm In Belfast where drivers are locals and often have histories of paramilitary involvement macho posturing often serves to deter would be criminals while New York cabbies mostly immigrants who view themselves as outsiders try simply to minimize the damage from attacks by appeasing robbers and carrying only small amounts of cash For most people erring in a trust decision leads to a broken heart or a few dollars lost For cab drivers such an error could mean losing their lives The way drivers negotiate these high stakes offers us vivid insight into how to determine another person's trustworthiness Written with clarity and color Streetwise invites the reader to ride shotgun with cabbies as they grapple with a question of relevance to us all which signs of trustworthiness can we really trust A Volume in the Russell Sage Foundation Series on Trust **Streetwise Ny Yo** Black Butch Malone, 2006-10 Is about coming up hard in Harlem It's gutta and ripe It's about sex blood blow and brains Having some and gettin some Streetwise Is about street smarts Read it playah Check your I Q **Streetwise for Book Smarts** Celina Su, 2011-02-23 In Streetwise for Book Smarts Celina Su examines the efforts of parents and students who sought to improve the quality of education in their local schools by working with grassroots organizations and taking matters into their own hands In these organizations everyday citizens pursued not only education reform but also democratic accountability and community empowerment These groups had similar resources and operated in the same political context yet their strategies and tactics were very different while some

focused on increasing state and city aid to their schools others tried to change the way the schools themselves operated Some coalitions sought accommodation with administrators and legislators others did not The events Su describes began with a series of stabbings in Bronx high schools during the 2003 2004 school year After this rash of violence several grassroots groups cited the need for additional safety patrols Mothers from one school spoke of how they had previously protested until they got extra officers a fairly scarce resource in New York public schools at their local elementary school Others asserted that not all the safety patrol officers already in place were treating students humanely Parent organizations and school officials battled over who was to blame for the school violence Did a police presence solve the problem or did it exacerbate the schools violence prone conditions Members of different groups proposed and mobilized behind a range of remedies These divergent responses shed light on the ways in which the choices made by each organization mattered By learning from Su s close observation of four activist groups in the Bronx including Mothers on the Move and Sistas and Brothas United we can better understand strategies that may ultimately lead to better and safer schools everywhere and help to revitalize American democracy

anyone wondering what to expect We live in a world where women are still mostly seen as second class where our beauty is our currency and our aging bodies render us somewhat invisible Women are powerful especially as we get older when we begin to care less about the external We forget the society standard and turn our back on the beauty stamp of approval Now that I've crossed that invisible line into menopause into the second half of my life I look around me in wonder and sometimes despair It's a challenge to not see yourself the way your culture sees you Every woman will eventually go through menopause that's half the population of the planet And yet it's something that is still not fully explored It's held in shame by some women and ignored by others It can be devastating to some and a call to freedom for others After going through her own change Ali Daddo wanted to explore all the feelings around menopause and especially the post menopausal years that so many women talk about as being the best years of their life Through sharing her own experience in a very real way Ali hopes that women won't feel so alone in what can be a very lonely time Alongside stories from some very well known Australian women

including Georgie Parker Anita Heiss and Rhonda Burchmore Queen Menopause is the book Ali wishes she'd had when she was approaching menopause so she could have been better prepared for what was coming embraced the process and felt supported This is for all women
