The Best Of Beethoven Best Of:

Beethoven's Chamber Music in Context Angus Watson, 2012 A noted violinist and conductor Watson is particularly well suited for his chosen task outlining the historical context and character of more than 50 of the chamber works that Beethoven composed during his years in Vienna Avoiding the pitfalls of becoming too critical or academic the author characterizes each composition in general terms only and does not discuss changing styles of performance Instead Watson provides information on a work's historical background and character and on the musical points of interest in each movement He pays special attention to the influence of Beethoven's large scale compositions on his chamber music and on the composer's increasing mastery of improvisation Filling a hole in scholarship on Beethoven's compositions this book will be greatly appreciated by professional and amateur musicians

Beethoven's Eternal Promise Eric Ludwig von Knipe, 2020-02-14 Beethoven's Eternal Promise By Eric Ludwig von Knipe Nick an aspiring musician runs away from Jackson Hole Wyoming Trying to escape the pain of his girlfriend's death he finds himself alone and homeless on the streets of London He is haunted by a legendary but very dead musician from another century Nick turns to drugs to drown everything out He is rescued by Madeline a beautiful Austrian doctor After spending a couple hundred years in hell Beethoven is given a chance at redemption He must win over the love of his life so he can spend eternity with her He finds in Nick the perfect conduit to make all his dreams come true Inspired by Madeline's faith in him and Beethoven's persistence Nick forms a band and soon reaches rock star status But the strain and stress of Beethoven's constant presence mixed with the demands of his new life cause Nick to spiral out of control Will Beethoven through Nick create a final masterpiece to save his soul Will Nick survive his encounters with this mad man or will it prove too much for his fragile mind

Beethoven's Symphonies Critically Discussed Alexander Teetgen, 1879 *Beethoven's Symphonies and J.S. Dwight* Ora Frishberg Saloman, 1995 John Sullivan Dwight 1813-1893 the first American critic of art music and the founder of Dwight's Journal of Music set a new standard for musical criticism in the 1840s by fostering the American reception of Ludwig van Beethoven's then unfamiliar symphonies Drawing upon extraordinary and painstaking research Ora Frishberg Saloman details the progressive and influential musical vision of the young Dwight offering a dramatic and long overdue corrective to the conservative image of the critic that has prevailed for most of this century

Beethoven's Dedications Artur Pereira, 2020-12-30 The dedication of a piece of music is a feature generally overlooked but it can reveal a great deal about the work the composer the society and the music world in which the composer lived This book explores the musical biographical and sociological aspects of the practice of dedicating new compositions in the late 18th and early 19th centuries and makes a significant contribution towards a better understanding of the impact these tributes had on Beethoven's life and work and their function within the context of the musical cultural and economic environments in which they appeared As the first of its kind this study demonstrates that as a result of their different functions published dedications and handwritten inscriptions are distinct from

one another and for that reason they have been classified in different categories This book therefore challenges the idea of what exactly can be termed as a dedication a concept which extends far beyond the dedication of musical works

The Best of Beethoven Ludwig van Beethoven,1986 The Video Source Book David J. WEINER,1990 **Dwight's Journal of Music** ,1878 Beethoven's Critics Robin Wallace,1990-01-26 This 1990 book is a survey of the critical reaction to Beethoven s music as it appeared in the major musical journals French as well as German of his day and represents the first published history of Beethoven reception The author discusses the philosophical and analytical implications of these reviews and reassesses what has come to be the accepted view of a nineteenth century musical aesthetics rooted in Romantic Idealism Wallace sees Beethoven s critics as in fact providing a link between two apparently antithetical approaches to music the eighteenth century emphasis on expression and extra musical interpretation and the nineteenth century emphasis on absolute music and formal analysis This book thus provides in addition to a carefully documented study of Beethoven s critical reception a re evaluation of his oeuvre and its significance in music history An index of all reviews cited is provided and a further appendix contains the quoted material in its original language
