The Qur an Modern Science Compatible or Incompatible

Ever since the dawn of human life on this planet Man has always sought to understand Nature his own place in the scheme of Creation and the purpose of Life itself In this quest for Truth spanning many centuries and diverse civilizations organized religion has shaped human life and determined to a large extent the course of history While some religions have been based on books claimed by their adherents to be divinely inspired others have relied solely on human experience

Al Qur an the main source of the Islamic faith is a book believed by Muslims to be of completely Divine origin Muslims also believe that it contains Divine guidance for all humankind Since the message of the Qur an is believed to be for all times it should be relevant to every age Does the Qur an pass this test In this booklet I intend to give an objective analysis of the Muslim belief regarding the Divine origin of the Qur an in the light of established scientific discoveries

There was a time in the history of world civilization when miracles or what was perceived to be a miracle took precedence over human reason and logic But how do we define the term miracle A miracle is anything that takes place out of the normal course of life and for which humankind has no explanation However we must be careful before we accept something as a miracle

An article in The Times of India Mumbai in 1993 reported that a saint by the name Baba Pilot claimed to have stayed continuously submerged under water in a tank for three consecutive days and nights However when reporters wanted to examine the base of the tank of water where he claimed to have performed this miraculous feat he refused to let them do so He argued by asking as to how one could examine the womb of a mother that gives birth to a child The Baba was hiding something It as a gimmick simply to gain publicity

The Bible The Qur an and Science THE HOLY SCRIPTURES EXAMINED IN THE LIGHT OF MODERN KNOWLEDGE

In his objective study of the texts Maurice Bucaille clears away many preconceived ideas about the Old Testament the Gospels and the Qur an He tries in this collection of Writings to separate what belongs to Revelation from what is the product of error or human interpretation His study sheds new light on the Holy Scriptures At the end of a gripping account he places the Believer before a point of cardinal importance the continuity of a Revelation emanating from the same God with modes of expression that differ in the course of time It leads us to meditate upon those factors which in our day should spiritually unite rather than divide Jews Christians

and Muslims As a surgeon Maurice Bucaille has often been in a situation where he was able to examine not only people's bodies but their souls This is how he was struck by the existence of Muslim piety and by aspects of Islam which remain unknown to the vast majority of non Muslims In his search for explanations which are otherwise difficult to obtain he learnt Arabic and studied the Qur'an In it he was surprised to find statements on natural phenomena whose meaning can only be understood through modern scientific knowledge He then turned to the question of the authenticity of the writings that constitute the Holy Scriptures of the monotheistic religions Finally in the case of the Bible he proceeded to a confrontation between these writings and scientific data The results of his research into the Judeo Christian Revelation and the Qur'an are set out in this book The Bible, the Qur'an, and Science Maurice Bucaille,1979 **The Quran and the Bible** William F. Campbell,2002 The Bible, the Quran and Science Maurice Bucaille,1977-12 **The Bible, the Qur'an and Science**,1978 *Modern Science in the Bible* Ben Hobrunk,2011-02-08 Ben Hobrunk although a biologist writes in layman's terms to describe current scientific debates and shows where scientific theories or conclusions differ from the Bible and offers explanations of the alleged differences In *Modern Science in the Bible* Hobrunk not only defends the Bible he lets others share his astonishment about the relevance of biblical rules The book underlines the reliability of the Bible in the field of science and presents hard scientific facts that are structured around themes such as combating epidemics hygiene nutrition and evolution The Quran and the Bible William F.
