*The Science and Practice of Stuttering Treatment* Suzana Jelcic Jaksic, Mark Onslow, 2012-06-07 The Science and Practice of Stuttering Treatment A Symposium is a comprehensive resource for practitioners and researchers that spans the scientific basis and clinical management of stutters in people of all ages from preschoolers to adults Written by an international team of clinical and research leaders in the field of speech and language pathology as well as scientists from the fields of epidemiology and neurology the book offers a truly comprehensive coverage of contemporary stuttering management Each chapter provides information on the Theoretical Basis of the Treatment Outline of the Treatment Scientific Evidence for the Treatment Advantages and Disadvantages of the Treatment Planned Future Empirical Development and conclude with an in depth critical review This book is a must have resource for speech and language pathologists researchers and educators worldwide FEATURES Offers a rigorous critical review of each treatment Written by leading international experts in the field Completely up to date with the latest clinical and scientific research This book is the output from the Research Symposium held in Croatia in 2010 This text is unusual in that it not only reflects the content of the Symposium presentations but also reports the discussion that the presentations generated The discussions that ensued were recorded and transcribed The consistent organisation of each paper in the collection allows the reader to quickly access the critical information and to make direct comparisons across therapies and provides the reader with a comprehensive overview of a variety of speech restructuring programs The advantages disadvantages and the discussion sections in each chapter help the reader with appraisal of the material presented and to make some judgements about generality and value The reader feels exposed to the atmosphere and dynamics of the Symposium in a way that is rarely captured outside the conference auditorium A review from Sharon Millard PhD MRCSLT Research Lead and Expert Speech and Language Therapist The Michael Palin Centre Whittington Health London UK

**Stuttering Research and Practice** Nan Bernstein Ratner, E. Charles Healey, 1999-02-01 Current approaches to treating stuttering do not reflect the new understanding of its nature which has emerged from recent studies This book brings together speech scientists and clinicians to discuss the best ways to close the perceived gap and maximize the effectiveness of treatment Together the chapters offer a comprehensive state of the art overview of the complexities of stuttering and its remediation Genetic neuropsychological behavioral and often neglected affective and cognitive factors are all considered Preferred methodologies for empirical investigation are described and specific examples of applied clinical research designs are provided The book will be crucial reading for all those professionally concerned with fluency disorders and their students

**Current Issues in Stuttering Research and Practice** Nan Bernstein Ratner, John A. Tetnowski, 2014-04-04 This state of the art volume is a follow up to the 1999 publication Stuttering Research and Practice Bridging the Gap edited by Nan Ratner and E Charles Healey Like its predecessor the current book is an edited collection of the presentations from the American Speech Language Hearing Association's Annual Leadership Conference in Fluency and

Fluency Disorders Among the topics covered are evidence based practice impact of the self help and support groups meta analyses of selected assessment and intervention programs current theories of stuttering and the predicted path of stuttering intervention in the future The authoritative representation of contributors offers the reader the most up to date presentation of fluency issues with a special emphasis placed on the practical clinical implications of fluency assessment treatment and evolving theories of the disorder The book is written for fluency specialists and graduate students in programs of fluency disorders It will also be valuable for the clinicians who wish to upgrade their skills in treating fluency disorders
