Telotte,Gerald Duchovnay,2015-07-27 Critical discussion of cult cinema has often noted its tendency to straddle or ignore boundaries to pull together different sets of conventions narrative formulas or character types for the almost surreal pleasure to be found in their sudden juxtapositions or narrative combination With its own boundary blurring nature as both science and fiction reality and fantasy science fiction has played a key role in such cinematic cult formation This volume examines that largely unexplored relationship looking at how the sf film s own double nature neatly matches up with a persistent double vision common to the cult film It does so by bringing together an international array of scholars to address key questions about the intersections of sf and cult cinema how different genre elements directors and stars contribute to cult formation what role fan activities including con participation play in cult development and how the occulted or bad sf cult film works The volume pursues these questions by addressing a variety of such sf cult works including *Robot Monster* 1953 *Zardoz* 1974 *A Boy and His Dog* 1975 *Tetsuo* *The Iron Man* 1989 *Space Truckers* 1996 *Ghost in the Shell 2* 2004 and *Iron Sky* 2012 What these essays afford is a revealing vision of both the sf aspects of much cult film activity and the cultish aspects of the whole sf genre **Medieval Authorship and Cultural Exchange in the Late Fifteenth Century** Rombert Stapel,2020-12-28 *Medieval Authorship and Cultural Exchange in the Late Fifteenth Century* is a multidisciplinary study of late medieval authorship and the military orders framed as a whodunit that uncovers the anonymous author of the *Utrecht Chronicle of the Teutonic Order* Through a close analysis of the *Utrecht Chronicle of the Teutonic Order* and its manuscripts and by exploiting a wide range of scholarly techniques from traditional philology and extensive codicological examinations to modern digital humanities techniques the book argues that the recently resurfaced Vienna manuscript is actually an author s copy written in direct cooperation with the original author This important assertion leads to a reinterpretation of the text its sources and composition authorship and the context in which it was conceived It allows us to associate the text with an upsurge of historiographical activities by various military orders across the continent seemingly in response to the publication and aggressive dissemination of the account of the Siege of Rhodes by Guillaume Caoursin in 1480 Furthermore the text can be

positioned at the crossroads between different cultural spheres ranging from the Baltic region to the Low Countries spanning French German Dutch and Latin linguistic traditions This book will appeal to scholars and students of medieval history as well as those interested in cultural history and the military religious orders **Library of Congress Catalog** Library of Congress,1970 A cumulative list of works represented by Library of Congress printed cards *Public Policy Praxis* Randy S.
