Conference,1998 **Catherine de Medici** Honore de Balzac,2015-12-28 There is a general cry of paradox when scholars struck by some historical error attempt to correct it but

for whoever studies modern history to its depths it is plain that historians are privileged liars who lend their pen to popular beliefs precisely as the newspapers of the day or most of them express the opinions of their readers Historical independence has shown itself much less among lay writers than among those of the Church It is from the Benedictines one of the glories of France that the purest light has come to us in the matter of history so long of course as the interests of the order were not involved About the middle of the eighteenth century great and learned controversialists struck by the necessity of correcting popular errors endorsed by historians made and published to the world very remarkable works Thus Monsieur de Launoy nicknamed the Expeller of Saints made cruel war upon the saints surreptitiously smuggled into the Church Thus the emulators of the Benedictines the members too little recognized of the Academie des Inscriptions et Belles lettres began on many obscure historical points a series of monographs which are admirable for patience erudition and logical consistency Thus Voltaire for a mistaken purpose and with ill judged passion frequently cast the light of his mind on historical prejudices Diderot undertook in this direction a book much too long on the era of imperial Rome If it had not been for the French Revolution criticism applied to history might then have prepared the elements of a good and true history of France the proofs for which had long been gathered by the Benedictines Louis XVI a just mind himself translated the English work in which Walpole endeavored to explain Richard III a work much talked of in the last century Why do personages so celebrated as kings and queens so important as the generals of armies become objects of horror or derision Half the world hesitates between the famous song on Marlborough and the history of England and it also hesitates between history and popular tradition as to Charles IX At all epochs when great struggles take place between the masses and authority the populace creates for itself an ogre esque personage if it is allowable to coin a word to convey a just idea Thus to take an example in our own time if it had not been for the Memorial of Saint Helena and the controversies between the Royalists and the Bonapartists there was every probability that the character of Napoleon would have been misunderstood A few more Abbe de Pradits a few more newspaper articles and from being an emperor Napoleon would have turned into an ogre
