Malotki, Ken Gary, 2006-02-01 The traditional Hopi world as reflected in Hopi oral literature is infused with magic a seamless tapestry of everyday life and the supernatural That magic and wonder are vividly depicted in this marvelous collection of authentic folktales For the Hopis the spoken or sung word can have a magical effect on others Witchcraft the wielding of magic for selfish purposes by a powaqa or sorcerer has long been a powerful malevolent force Sorcerers are said to have the ability to change into animals such as a crow a coyote a bat or a skeleton fly and hold their meetings in a two tiered kiva to the northeast of Hopi territory Shamanism the more benevolent but equally powerful use of magic for healing was once commonplace but is no longer practiced among the Hopis Shamans or povosyaqam often used animal familiars and quartz crystals to help them to see diagnose and cure illnesses Spun through these tales are supernatural beings otherworldly landscapes magical devices and medicines and shamans and witches One story tells about a man who follows his wife one night and discovers that she is a witch while another relates how a jealous woman uses the guise of an owl to make a rival woman's baby sick Other tales include the account of a boy who is killed by kachinas and then resurrected as a medicine man and the story of a huge rattlesnake a giant bear and a mountain lion that forever guard the entrance to Maski the Land of the Dead

Leinaweaiver, 2011-07 Internationally adopted persons confront multiple challenges in constructing their identities. This study of the narrative burden of self looks at and interprets the dynamic process in which internationally adopted people develop coordinate and manage their sense of self identity and cultural racial personhood. Drawing on the theory of the Coordinated Management of Meaning CMM the study focuses on their use of orphaning and adoption stories to most skillfully position and tell one's origin story in concert with one's internal sense of self and the pressures and forces found in interpersonal and intercultural dialogue. The research reveals how internationally adopted people develop and demonstrate varying levels of game mastery in managing societal scripts and oppressive frames of stigma. Through this game mastery the research brings to view how the participants have reflexively learned to claim ownership of their stories and develop a sense of agency while fashioning self empowering narratives out of the resources of their personal root journeys to better manage frame and coordinate the meaning of their stories across cultural and interpersonal boundaries **Kayaya and Other Tales Part 2** Shrikant Mishra, 2021-03-08 Kayaya and Other Tales are stories and picture of passion dynamism of innovation of inspiration of battle against nature of friendship of family of love and of technologies.
